

SURPRISE

SPRUNG ON BRITISH BY THE BOERS.

SIX HUNDRED MEN AND CONVOY CAPTURED

AFTER A VERY LIVELY BATTLE.

News of Engagement Suppressed But Parliament Will Ask for Facts in the Case.

London, April 5.—The Boer Junta in London says that it has received news of a recent action in South Africa in the course of which the Burghers captured a loaded British convoy and 600 men, releasing the soldiers, according to custom, after having relieved them of rifles, cartridge belts, ammunition and superfluous clothing. The War Office denies knowledge of such an engagement and the Boers assert that the information of the capture has been deliberately suppressed either by Lord Kitchener or his subordinate commanders.

One of the Boer delegates describing the action, said "Six hundred British troops, commanded by a Colonel, were advancing through broken country in charge of a baggage train, when 100 Boers appeared directly ahead of the convoy at some distance and opened fire. The British commander sent 400 men forward to disperse the enemy. Thereupon a strong party of Burghers attacked the small convoy guard, surrounding it and disarming it. The British advance detachment tried to return to their comrades, but the Boers closed upon all sides of the detachment, which surrendered after a slight resistance. The surprise effect of the Burghers was complete. In casualties on both sides were few.

Parliament will investigate the statement.

The Railroad Merger.

Washington, April 5.—Senator Hanna called at the White House last night in company with George W. Perkins, confidential man of J. P. Morgan and had a long conference with President Roosevelt over the railroad merger case. Neither Senator Hanna nor Perkins would say anything about the conference after they left the White House.

JANITOR

Receives a Cablegram Saying That Cecil Rhodes Left Him Fifty Thousand Dollars.

New York, April 5.—Janitor George Rhoades of Lakewood, N. J., is a happy man today. He has a telegram informing him that he is heir to \$50,000 left him by the late Cecil Rhodes. The janitor was dusting the shelves in a bicycle store when he learned the news. When asked about it he said, "Yes, sure, I am his first cousin, his nearest male relative."

VAN WORMER MURDER CASE.

Hudson, N. Y., April 5.—The jury in the Van Wormer murder case at Hudson was completed at 11:20 and court adjourned until 9:30 o'clock Monday morning.

BROKE WINDOW

In Residence of Alva Willard at Hebron, but After a Chase the Man Escaped.

Hebron, April 5.—About midnight Friday night some person smashed in the front window of the residence of Alva Willard, on Third street, with a coupling link secured from the T. & O. C. railroad. About two weeks ago the same kind of an assault was made on the same house.

Charles Strong and some of the neighbors aroused by the noise went to the Willard house, and there was considerable excitement. Soon after all went to their homes but two or three who remained to await developments. After a time a large man was seen, who came in the yard and approached the house. Pursuit was given but the fellow made his escape. The identity of the mysterious man is still a mystery.

BUNKOISTS

From Toledo in an Attempt to Rob a Farmer Foiled by the Bank Official.

Lima, Ohio, April 5.—Only for the alertness of officials of the city bank here John Bower, a rich farmer, would have been \$500 poorer today. Bower was taken in tow by a gang of flimflammers who have been here from Toledo for several days, and was made to believe that he could win \$500 at a game. Mr. Bower fortunately did not have the required amount with him, and was induced to go to his bank, where he has a good sum to his credit, but the same game had been tried so often among the farmers here lately that the bank officials were suspicious and persuaded Mr. Bower that his cash was safer in the bank than in the hands of the sharpers.

CORTELYOU

Slated for Secretaryship of the New Department of Commerce It is Said Today.

Washington, April 5.—George B. Cortelyou, secretary of the President, is slated for the Secretaryship of the Department of Commerce as soon as

PRIVATE SECRETARY CORTELYOU, the bill creating that division of the government becomes a law.

If President McKinley had lived it is quite probable that Mr. Cortelyou would have been a member of the cabinet before this time. President Roosevelt it is said, has come to regard Mr. Cortelyou's abilities as highly as did Mr. McKinley.

APPOINTMENTS

MADE BY COUNTY AGRICULTURAL SOCIETY.

Indebtedness Reduced \$1500 During the Past Year—The Directors Meet in Newark.

A meeting of the Board of Directors of the Licking County Agricultural Society was held today for the purpose of revising the premium list and selecting the heads of the various departments, and transacting such other business as might come before the body.

President J. Willis Fulton made the following appointments:

First Dept., Thoroughbred Horses—T. M. Payne of Johnstown, and A. D. Burnside of Alexandria.

Second Dept., Short Horn Cattle—George D. Orr, Brownsville.

Third Dept., Fine Wool Sheep—J. J. Deeds, Pataskala.

Fourth Dept., Swine—T. W. Shanahan, Newark.

Fifth Dept., Fine Arts—W. H. Kusmaul, Granville.

Sixth Dept., A. J. Crilly, Newark.

Seventh Dept.—Arthur Wyeth, of Johnstown.

Superintendent of Police—H. W. Baird, Pataskala.

Superintendent of Grounds—J. W. Mothershead, Newark.

Secretary J. M. Farmer settled with Mr. J. F. Lingafelter for the use of the Fair Grounds from April 1, 1901, to April 1, 1902, by paying to the Society the sum of \$300.

The Society has paid during the past year the sum of \$1500 on three bonds, leaving an indebtedness still hanging over the Society of \$6,300.

Parties desiring to see the Secretary, Mr. J. M. Farmer, can see him at the shoe store of Carl & Seymour.

SHOT

MAN WHO HAD BEEN COURT-ING HER DAUGHTER

HAVING LEARNED HE WAS A MAN OF FAMILY.

SUITOR'S WIFE WAS SHOT, ALSO.

Terre Haute, April 5.—Mrs. Anna Denny, wife of ex-county auditor Chas. Denny, shot and badly wounded Orma Marbury and wife last evening. Mrs. Denny was infuriated because she had just discovered that Marbury, who has been keeping company with her daughter for two years is a man of family.

Mrs. Denny has been suspicious of Marbury for some time and yesterday followed him home and found him kissing his wife good bye.

"You had better make that a good one, for it may be your last," exclaimed Mrs. Denny and she fired at Marbury. He threw up his hands and the bullet passed through his palm. He ran and Mrs. Denny fired again, seriously wounding Mrs. Marbury in the left breast. Mrs. Denny was arrested, but expressed no regret more than saying she is sorry her bullet did not kill Marbury. A strange feature of the case is that the families live within a short distance of each other. Mrs. Marbury may die.

SERIOUSLY HURT

FORMER NEWARK WOMAN INJURED IN COLUMBUS.

Mrs. Mary Williams Had Collar Bone, Shoulder Blade and Arm Fractured—Horse Ran Off.

The many friends of Mrs. Mary Williams will be pained to hear that she was seriously injured at Columbus last Friday afternoon, through the carelessness of a driver in the employ of the Columbus Transfer company. Mrs. Williams had been visiting in Newark and left Friday to pay a visit to a sister residing in Columbus. She took a cab at the station to be driven to her sister's residence. The driver left the horse unhitched and the cab doors open. The animal became frightened and ran away, throwing Mrs. Williams out, breaking her collar bone, shoulder blade and upper arm. She also sustained serious cuts and bruises about the head. Mrs. Williams is now at Grant Hospital, Columbus, where everything that care and skill can avail is being done. Her daughters have all been summoned to her side. Mrs. Williams is an old resident of Newark, but has lived several years in Cincinnati. She is the mother of Mrs. J. F. Shaub, well known here. She has relatives in Newark. Mrs. Williams is reported slightly improved, but owing to her advanced age grave fears are entertained for her recovery.

To Protect American Interests.

Washington, April 5.—A cable to the navy department today announced that the gunboat Machias sailed yesterday from San Juan for San Domingo. She will attend to the interests of American citizens that may be in danger by the revolution on the island.

Good Gold Strike.

Boise, Ida., April 5.—Many rich strikes are reported in the Union mountain district. Every miner there, it is stated, has made money and many have become wealthy. Ore brought out today is thick with gold and runs over \$15,000 to the ton. The trail is in good condition and prospectors from all portions of the country are crowding in.

Riot Expected.

Phoenix, Ariz., April 5.—A strike in Senator Clark's United Verde mine has closed the mine and 200 men are idle. Three hundred armed Mexicans have replaced the strikers and a riot is expected at any moment.

DECISIONS

HANDS DOWN LATE ON FRIDAY AFTERNOON.

By the Circuit Court Which Then Adjourned to Meet on Tuesday Morning.

Decisions were announced by the Judges in the Circuit Court late Friday afternoon as follows:

Joseph G. Welsh vs. George E. Wells judgment of Common Pleas court reversed for errors in the exclusion of evidence, errors in the charge and other errors, and case remanded to Common Pleas. Smythe; Hunter, Norpell.

Flavius Hazlet vs. City of Newark; action brought to recover a certain portion of unpaid salary alleged to be due as policeman. Judgment of Court below in favor of defendant affirmed. B. G. Smythe; Fulton, Phil B. Smythe.

Same judgment in Samuel L. Swan and Jacob R. Kellenberger against the city of Newark.

J. R. Channel vs. State of Ohio; defendant in the court below, Channel, was indicted by grand jury for grand larceny, charged with stealing and driving away a sow and nine pigs of the value of over \$35. Trial was had, defendant found guilty, jury fixed the value at less than \$35, or petit larceny. Error was prosecuted to Circuit Court. Judgment of conviction in the court below reversed for errors in excluding evidence; error in charge; and that the verdict is not supported by the evidence. Cause remanded to the Common Pleas Court for further trial. J. B. Jones, Smythe & Smythe; Fulton, Hunter, Fitzgibbon.

Chas. Donaldson vs. E. A. Smith, an action brought to restrain the collection of a judgment. Finding and judgment for plaintiff; injunction made perpetual, 50 days allowed for bill of exceptions. Hunter, Fulton & Fulton; Smythe & Smythe.

Frank A. Bolton as executor, vs the City of Newark, an action for compensation by reason of injury to horses of plaintiff's decedent falling into a ditch on Granville street, it being claimed that the excavation was insufficiently guarded or protected by lights at night. The common pleas court sustained a motion to take the case from the jury and directed a verdict for defendant. The Circuit Court reversed this action of the court below, and remanded the case for further proceedings. B. G. Smythe, Fulton.

Lida Braschoss vs. State of Ohio; May Miller vs. same; Pearl Graff vs. same; and Cora Vail vs. same. The plaintiffs in error were indicted, tried and convicted of being keepers of houses of ill-fame, for the purposes of prostitution and lewdness. Judgment of Common Pleas affirmed, and cases remanded to Common Pleas Court for execution. James, Smythe & Smythe, Swartz, Lemon; Fulton.

Thos Pelky vs. Nettie Swern, an proceeding in aid of execution. Judgment of Common Pleas reversed and remanded. Smythe & Smythe; Kibler & Kibler.

Jos. Moran and Lee Stickle vs. State of Ohio; plaintiffs in error were indicted, tried and convicted of larceny; judgment of conviction reversed for the reason that the same is manifestly against the weight of the evidence. Smythe & Smythe; Fitzgibbon.

Ellud Shrader, admr., vs. Amanda Maholm (Blind); motion to dismiss for want of necessary parties defendant, it appearing that the time to bring in such defendants has expired, sustained. Follett & Follett; Hunter, Swartz, Jones.

Amanda Maholm, admr., vs. Thos. T. Maholm, et al., decree finding Pratt claim is a valid claim against the Maholm estate, but not a lien. Costs of this proceeding taxed against the estate. Hunter, Swartz, Jones, Follett & Follett.

Court adjourned to Tuesday morning next at 10 o'clock.

Divorce Granted.

In the Probate Court this afternoon Mary A. Keenan was given a decree of divorce from her husband, James A. Keenan, on the grounds of neglect of duty.

Albert A. Stasel has been appointed guardian of Edward Hibbert, a minor. George W. Heimick has been appointed administrator of the estate of Eleanor Bishop, deceased, of Etina township. Bond, \$2,000.

LOVE

IS ALWAYS ABLE TO FIND A WAY

NELLIE AND MR. WILLIAMS USED A PHONOGRAPH.

WHEN GIRL WAS QUARANTINED

And Marriage Took Place on Schedule—Girl Fell in Love With J. L.'s Picture.

Franklin, Pa., April 5.—Nellie Parker and J. L. Williams have proved that love will find a way. The young woman's first knowledge of Williams was had through his picture in a newspaper. She fell in love with the picture and wrote Williams. He replied, proposals of marriage and acceptance followed, and yesterday was set for the wedding. Miss Parker a few days ago visited friends, in whose home small pox developed and the house was quarantined. She and Williams were superstitious in regard to postponing the wedding and were chafing under the restraint of enforced quarantine, when a phonograph was suggested. A minister who is an immune, pronounced the questions, and with the answer were imprinted on the phonograph cylinder. Then the clergyman went to Williams' house and the phonograph recorded his vows and in the hearing of the minister Williams and several friends repeated the ceremony in which the bride had figured. The minister then pronounced them man and wife.

Cora Hughes' Death

Cora, the eight-year-old daughter of Mr. and Mrs. John Hughes, who reside on the farm of Mr. Benjamin Sheppard in Mary Ann township, died Friday from pneumonia. The funeral will be held from the home of the parents Sunday morning at 10:30 o'clock sun time. The interment will be in the Wilson cemetery.

Stepped On Spike.

Summit Station, O., April 5.—Thos. A. Beam stepped on a spike yesterday that penetrated his right foot, producing a painful wound. Dr. Weiss attended to the injuries.

BASE BALL

SEASON OPENS SATURDAY AT GRANVILLE

Mutes vs. Denison on April 12—Schedule for the Season is Now Announced.

Granville, O., April 5.—The prospect for a winning base ball team are very good. If the weather is favorable the first real article of ball for the season will be seen next Saturday, when the Mutes will give our boys some lively practice and enable us to get in line on the real merits of some of our prospective players. The following, subject to slight changes, is the schedule for the season:

OPEN MEETING

At the Y. M. C. A. Sunday Afternoon.

Dr. John A. Ziegler of Cincinnati, Will Speak

A special meeting at the Y. M. C. A. Sunday afternoon will be addressed by Rev. John A. Ziegler D. D., of Cincinnati. A cordial invitation is extended to the public to attend this meeting in Taylor Hall at 3:30 o'clock. Dr. Ziegler is one of the prominent pastors of Cincinnati and it will be a great pleasure for the general public to have the opportunity of hearing an address from one of our visitors.

There will be special music during the song service. Solo by Mrs. C. W. Miller and a cornet and trombone duo by Messrs. Will and Frank Reynolds accompanied by Prof. Reynold. Everybody will be made welcome at this service. Come early and hear the music.

The boys' meeting at 2 p. m. will be in charge of Miss May Lumley and all boys will be made welcome. There are but a limited number of sessions remaining for this class and all members should be regular in attendance.

MORE MANUFACTURERS

Interviewed on Water Works Issue to be Voted on Monday.

Employers of Men in All Parts Are Out in Favor of City Ownership and Advocate the Issue of Bonds—This is What They Say.

Yesterday's Advocate contained interviews with Edward H. Everett, President of the Everett glass factory, the largest industry in the city, aside from the B. & O. shops, with William W. Wehrle, head of the Moser Wehrle company's stove works, J. R. Goldsborough, general manager of the New ark Iron and Steel works, J. J. D. McNamer and R. Scheidler of the machine industries, and with Pratt & Montgomery, the planing mill men or the water works issue, and all coming out strongly in favor of city ownership and in favor of supporting the water works proposition and in support of the non-partisan committee's recommendation to vote "for the issue of water works bonds" next Monday.

During the day the Advocate has interviewed a large number of other manufacturers of Newark and with a single exception, all are warm advocates of city ownership and will vote for the bond issue. Read what these men have to say. If you are yourself undecided as to how you shall vote on this important matter Monday, the expressions of these leading men of the city may help you to arrive at a conclusion. These interviews clearly show that the issue is non-political as some of the heartiest supporters of the measure are political friends of the paper that is antagonizing the water works proposition. This is what they have to say:

A. G. WYETH'S VIEWS.

Ralph Wyeth, manager of the A. G. Wyeth Oil Tank and Wagon Manufacturing plant, and a son of Mr. A. G. Wyeth, said this morning:

"Why, of course, my father and I are both in favor of municipal ownership, because of the cheaper water rates, and increased adequacy of the fire protection that can be given under city ownership."

SMITH LUMBER COMPANY.

W. W. Smith of P. Smith & Sons Lumber company, said: "I am in favor of the proposition. Now is the time to decide the matter. Delays are dangerous."

JEWETT CAR WORKS

The Advocate made efforts to see Mr. A. H. Sisson of the Jewett Car Works, but that gentleman was not in town today.

BALL CARRIAGE WORKS.

Lawrence Ball, manager of the Ball Carriage Works, said to the Advocate this morning that he is in favor of city ownership of the water works and will vote that way on Monday.

WILLIAM E. MILLER.

VAULT

HOLDING OVER \$4000 WAS BLOWN OPEN

AND ROBBERS GOT AWAY WITH THE MONEY.

BANK OFFICIALS ARE RETICENT

Awaiting the Arrival of the Chief—Little Town of Pennville, Md., Visited by Burglars.

Pennville, Md., April 5.—The bank of Pennville at this place was burglarized at 3 o'clock this morning. The safe was thoroughly blown and the contents taken. About \$100 was picked up on the floor where it had been scattered about. The officials refuse to give out any figures saying a statement will not be made until the arrival of A. G. Lupton, the bank's head, from Hartford City. From outside sources the statement comes that the bank had in its vault between \$4,000 and \$7,000. The bank is a private institution.

E. T. RUGG.

E. T. Rugg of the Rugg Halter Factory, said that he was in favor of municipal ownership and would vote next Monday for the issue of the bonds.

SITES & KELLENBERGER.

William Kellenberger, of Sites & Kellenberger's Flour Mill, said: "I am in favor of the city owning the water works. It will mean lower rates, and better fire protection."

E. M. MONTGOMERY.

E. M. Montgomery, proprietor of the Montgomery Flour Mill, said: "I am in favor of the city owning its plant, and voted for the proposition when it was up to the people before."

FERD A. CRANE.

Mr. Ferd Crane, secretary of the Newark Ice and Cold Storage company, said: "I am in favor of municipal ownership, if everything can be done right. I have not yet decided how I shall vote next Monday, but am open to conviction that I should not vote for city ownership."

HEISEY GLASS FACTORY.

An effort was made by the Advocate both yesterday and today to interview Mr. A. H. Heisey, but as Mr. Heisey was not in the city an expression from him could not be obtained.

CONSUMERS BREWERY.

Mr. Charles Andree, President of the Consumers Brewing company, said this morning:

"Of course we are in favor of the city owning its own plant. The rates charged here were so high that we had to take out the water, and are now using water from wells recently driven by us, at a big outlay. In Columbus the breweries use city water, because they get it cheaper than they can pump it, but it is different with us here in Newark. Municipal ownership will certainly lower the water rates."

H. O. NORRIS.

Mr. H. O. Norris, the lumber dealer, said: "I am in favor of issuing bonds for the ownership by the city of their water system."

NEWARK PAPER MILL.

Harry Smart, manager of the Newark Paper Mill, said:

"We are heartily in favor of municipal ownership, and shall work and vote for it. We only have one plan near us that could be used in case of fire, and should have at least three."

Our Popular Candidate For Mayor.

As the campaign for Mayor draws to a close it becomes more evident that the tide which set in from the time of his nomination in favor of the genial young Democratic candidate, Mr. Frank A. Bolton, has become a wave of popularity, upon which this energetic and capable young man, will be carried to well merited victory.

During the campaign Mr. Bolton has conducted himself in a manner that has won for him the respect and support of men of both parties, who see in him those qualities which will make him an ideal Mayor. These qualifications are varied, and of a high order. By education and training he is exceedingly well fitted for the position. Mr. Bolton is a successful attorney and there are many duties to discharge that make this qualification largely advantageous to be a successful Mayor.

Another qualification possessed by the Democratic candidate is his easy courtly manner, and ability to make pleasing public addresses. During his term he will on many occasions have to act as the official host for the city, and that he will do it well goes without saying. In this connection it should be remembered that next September the monster Labor Day celebration will be held in Newark as well as the Elks' State convention, when hundreds of visitors will be here from all over the state. Mr. Bolton will make an ideal official host on these occasions. The thousands of guests will be so favorably impressed with our city's chief official in the discharge of these functions that they will carry to their homes recollections that cannot fail to spread Newark's popularity abroad and promote its welfare.

Frank Bolton is immensely popular, and especially with the young men who are rallying to his support. Courteous, educated, refined, and thoroughly conscientious, Frank A. Bolton will fill the office of Mayor of Newark to which he will surely be elected in a manner satisfactory to the people and with credit to himself.

EVERY CITIZEN

Who Wants Better Protection From Fire.

Should Vote for City Ownership of Water Works, Whether He Uses City Water or Not.

Every citizen of Newark, whether he uses city water or not, is interested in better fire protection at less cost—less burden to the taxpayers. This can only be attained by the city owning and operating its own plant. Our factories need more fire plugs—there should be more fire plugs at many important points throughout the city—so that it would take less hose to reach a blaze and the fire department could have better facilities to attach and throw water with greater promptness and force. These are vital considerations for the citizen who does not use city water as well as the people who do. But this additional fire protection cannot be provided by the city under its contract with the present water company, except at an enormous annual expense. The only way the additional fire plugs can be supplied is for the city to own its plant, and this is what the people should vote for next Monday.

The defeat of the proposition next Monday means another 20 years contract with the present company. Vote against this contract by voting for city ownership.

If the Newark water works company lost so many thousands of dollars last year and the year before and the year previous to that, why is it so anxious to continue its contract with the city? If it is in a losing game why doesn't it want to quit? If there is no money in the water business why doesn't it want to sell out to the city and use the money where it will bring some returns? The argument that the present company is losing money and therefore that the city could not maintain the plant without a loss is entirely too thin to hold water.

Double Dealing Methods.

The desperate and unprincipled character of its campaign methods was fully developed in Friday's issue of the American-Tribune, when that paper assailed the Democratic nominee for Mayor with charges of being the candidate of the saloon element, and held its candidate, Forry, up to the people as the high moral champion.

The unprincipled character of such a campaign is apparent, for it is notorious that emissaries of Forry, the Republican candidate, are promising saloon men absolute protection and a wide open town in the event of his election.

Here is a plain effort to hoodwink the voters of this city with a candidate who allows it to be believed of him that he is a radical temperance candidate, while behind the American-Tribune's high morality screen, his friends assure the saloon men that it is all a bluff, and that they can have things all their own way. But such a campaign is unworthy the confidence of any person.

The Democratic nominee is in no such false position. Neither is he the candidate of any class or condition of men, but is the candidate of the Democratic party. Mr. Bolton has made no promises, nor has he allowed his friends to make any for him. He is running his campaign solely upon his merits, and he will give this city a clean, honest and capable administration. This is assured by his good character; is evidenced by his spotless reputation here in the city of his birth; it is assured by his ability as a lawyer and business man.

Remember that the City Council to a man has pledged itself not to issue the water works bonds for two years and in this written promise every candidate has joined. This removes the possibility of the city having both interest on bonds and water rental to pay at the same time. It was this action that caused the non-partisan committee to come out flat-footed in favor of voting for the water works bonds this spring.

To Cure Grip in Two Days.

Laxative Bromo-Quinine removes the cause. Dr. W. W. Brown's signature on every box.

What Success Means.

If the people of this city vote in favor of the water works proposition, the following benefits will accrue to them:

1. They will have an up-to-date plant.
2. It will not be necessary to pump directly from the creek, as at present, and thereby serve muddy water whenever the creek is in full.
3. The water will be distributed over the whole city, so that all our citizens can enjoy its benefits.
4. There will be nearly double the number of fire plugs, thereby furnishing fire protection to all the factories and homes in the city.
5. For the above reason insurance rates will be lower.
6. Water will be furnished to the consumer at one-half, or less, the present price.
7. The tax levy for water will be totally wiped out, and the tax payer will not be taxed one cent for water purposes.
8. Hundreds of men would be given employment for a year or more, at good wages, in the building of the plant, providing it was found inadvisable to purchase the old plant.

What Defeat Means.

In plain terms here is just what the defeat of the water works proposition next Monday means:

Another 20 years contract with the water company at the prices and terms the company shall dictate. Continued high taxes to pay the enormous annual rental for fire plugs and continued increase of that sum as the city grows.

Continued inadequacy of fire protection for our factories.

Continued high rates for water to consumers, which are much higher than the average in other cities.

And nothing tangible that the city will have to show in the end for all the money it has paid out and the high taxes the people have suffered.

At first the American-Tribune pretended to favor the non-partisan committee's report but when the committee consisting of four high minded citizens, Messrs. Benj. Franklin, C. C. Metz, Edward Kibler and Edward Thomas, came out and urgently requested the people to use every honest endeavor to secure a favorable vote on the water works issue, the Tribune took a shift in its position and openly came out in favor of the water company. It is no longer a question of two years delay. It is plainly this—City ownership, yes, or city ownership, no. The Advocate says "yes," and so does the non-partisan committee. The leading manufacturers of Newark favor city ownership. The leading taxpayers and citizens favor it. It is the only sensible course. Now let the people vote for it.

Are you in favor of city ownership of water works? If so, vote for the proposition next Monday. It will not do to be governed by the excuse that the question is submitted "too soon." The real arguments now presented against city ownership will be urged just the same in two years, or any other future time. If city ownership fails to carry next Monday the people will readily discover that the question has not been submitted a day nor an hour too soon. They will find that the defeat of city ownership next Monday means another 20 years contract with the present water works company. It means nothing else.

Supt. Veach's report and argument for private ownership of water works recites the fact that the water sold last year by meter netted the company 1 cent per 1,000 gallons. The fact is that the great majority of the people of Newark have paid and still pay 30 cents per 1,000 gallons for water, and in order to reach an average of 1 cent as Mr. Veach reports, some of the heaviest consumers of water in Newark must get it at about five cents per 1,000 gallons. This graduated scale of prices, which the small consumer suffers is decidedly unpopular and it will prove so when the people begin to vote on Monday.

What has the city to lose by voting for water works bonds on Monday? Study well what it has to gain. There will be an immense advantage in giving the city the upper hand in dealing with the water company and the only way on earth to give the city the whip hand is to authorize the issue of water works bonds.

TOTAL COST

To City If Necessary Additional Water Mains and Fire Plugs are Put in by Present Water Company.

More than 100 streets in Newark have no city water pipes. There should be 17 more miles of main laid in town, but to have the private water company lay them would make the city's annual water rental \$21,000. The city now pays \$12,900 annually to the water company and according to the contract the city must pay an additional rental to the company of \$45 for every 500 feet of new water main that is laid. The city began its contract by paying \$10,000 a year but this sum has crept up as the mains have been extended to \$12,900. The enormous additional expense of extending the mains has made it impossible for the city to extend them to meet the numerous demands of the growing city.

Not only are 180 more plugs needed to give every citizen proper fire protection and all the people the privilege of using city water, but \$9 additional plugs are wanted to give the factories of the city adequate protection against fire. If the city were to order these plugs put in under the present system it would raise the annual rental over \$4,000 more, making a grand total of \$25,000, but if the city owned its own plant it would cost nothing for rental and the entire cost would be the price of the plugs and the little pipe necessary to install them. The money now paid by the city for fire protection will pay the interest on the proposed \$300,000 bonds and out of the water system's earnings, expenses would be paid and a sinking fund created to pay for the bonds. In time the city would pay for the plant and it would then be a source of revenue to its treasury.

Downright Hypocrisy.

For the last two days the American-Tribune has resumed its standard habit of parading the immorality, wickedness and total depravity of Newark. For a time the interests of the water company greatly overshadowed the peril of Newark's morality, but the people's very general condemnation of its course on that question has caused it to return to its old vocation of mud-slinging at its own town, and giving it a bad name abroad to the injury of every property owner in the city. Now its campaign issue is that Newark is a hot bed of crime and corruption and the Democratic candidates are responsible for it. That is its argument. Yet while making this holy show of morality—traducing the Democratic candidate for Mayor, by falsely charging him with being in league with the saloons—emissaries or agents of its own candidate have been busily engaged in visiting saloons and promising the owners a WIDE OPEN TOWN if he is elected. Those agents are promising the saloon men anything for votes or candidate Forry.

Mansfield, Ohio, owns its own water system and the water rates there are half the rates charged in Newark. The city of Newark owns its own electric light plant and the cost of lighting the city is half of the price Mansfield pays for lighting. The two cities are practically the same size, Newark having probably 2,000 more people than Mansfield. This shows conditions in a nutshell. Mansfield with city ownership of water gives the people a rate just half what Newark pays, and with private ownership of light Mansfield pays twice as much as Newark which owns her own light plant. If Newark can make such a showing with its light plant she can do the same thing with water works. The people must give it a chance by authorizing the issue of water works bonds next Monday.

Voters in five of the wards where members of the school board are to be chosen will have four ballots to mark next Monday. First, there will be the ballot with the names of the candidates for city and township officers; second is the ballot with the names of the candidates for Board of Education; third is the water works bond; and fourth is the hospital bond ballot. Voters in the other three wards—the First, Second and Seventh, will have three ballots instead of four, as members of the Board of Education will be elected this spring in only the Third, Fourth, Fifth, Sixth and Eighth wards.

How to Vote For Water Works.

Separate ballots are printed for the water works proposition and city hospital to be voted for on Monday. Those who favor city ownership of water works will vote by placing the X mark thus:

- ☒ For the Issue of Water Works Bonds.
☐ Against the Issue of Water Works Bonds.

How To Vote For City Hospital.

- ☒ For the Issue of Hospital Bonds.
☐ Against the Issue of Hospital Bonds.

Those who vote against either of these propositions will place their X mark in the space designated for that purpose.

Municipal Ownership.

A gentleman who for some years lived in Minneapolis, was speaking this morning of municipal ownership of water works, and the benefits to be derived to the tax payers, and the consumers of water under this system.

Minneapolis is a city of 202,718 inhabitants and for at least 15 years has owned its own system of water works, which is a paying proposition.

At the end of every fiscal year since 1888, the city water department has issued a statement of reduction of rates for the year ensuing.

Every year there has been a large reduction, until now the rates are really only nominal. The water works at Minneapolis is a paying investment for the city, and as it is not desired to make money but to merely charge enough to maintain the plant, the consumers get the benefit of these reductions of rates.

If Granville and Mt. Vernon, which are much smaller than Newark, and Minneapolis, ten times as large, find municipal ownership so advantageous, it does violence to a man's intelligence to argue against a self-evident proposition, that the city ownership of water works, will of necessity, be a good thing for Newark.

Let every one vote Monday

"For the issue of water works bonds."

Those who are opposed to public ownership of the water works, those who are satisfied with the present rates for city water, those who think that our factories and homes now have sufficient protection against fire, those who prefer to let a private company reap the benefits of conducting a water works system in Newark, rather than let the profit go to the people will place their X marks to the left of the words: "Against the issue of Bonds" on the special water works ballot. Those who look at it from the people's standpoint will place their X mark in the space to the left of the words, "For the issue of bonds."

The money that the city of Newark each year now pays to the water company for fire protection—\$12,900—would pay the interest on the proposed issue of bonds for the purchase of the present system or the construction of a new one and the income from the private consumption of water would pay all the expenses and would create a sinking fund for the payment of the bonds as they fall due. Eventually as in other places where city ownership prevails, the bonds would be paid, the interest would stop and the water works would be a source of revenue and not expense to the city. Vote for city ownership Monday by voting "for the issue of bonds."

A misguided man has been circulating the story since Friday that if city ownership of water works should prevail in Newark, it would cost each person tapping the water mains \$20 for the privilege and that each would pay \$1.50 a month. What purpose this man had in circulating such statements can only be guessed at, as there is not an iota of truth in the report. City ownership means cheaper water for consumers, an extension of mains and better protection against fire. It means less expense to consumers not greater expense.

Abuse and extravagant statements exhibiting malice are not arguments and the Advocate takes pride in its freedom from such methods.

Whom City Ownership Benefits.

A few people have said that city ownership will benefit the users of water, but not the taxpayers, but we argue that it will benefit both. In the first place it will benefit water users by lowering the price of water. It will benefit taxpayers by affording them better protection against fire and by eventually lowering the city's taxes. The \$12,900 that goes each year from the city treasury into the water company's hands for fire protection, will go to pay the interest on the \$300,000 bond issue, and the revenue from the operation of the plant will pay all the expenses and create a sinking fund to pay for the system, and when the bonds are paid taxes will be lower. People who are neither tax payers nor water users at present will be benefited by having the privilege of using city water at a reasonable price. It is now too high for many people. A fair rate will give everybody a chance to use city water. Read what the manufacturers of Newark say in another column.

The Advocate has not varied from its long established custom of conducting a clean campaign. The Advocate on all occasions prefers to devote its columns to the promotion of the business interests and general welfare of our growing and prosperous city to that of descending to low down methods in a disreputable contention over a few paltry offices. True, this paper has shown the superiority of the Democratic candidates—that their election would be for the best interests of the beautiful city that is its home—but its absolute fairness to the opposition throughout the campaign, is the universal remark among fair minded people.

Granville For Example.

The village of Granville has paid for its water works system in the past 16 years, and has given the people a low rate for water. A Granville barber said today that he gets water for his shop in which he operates three chairs and has a bath tub, for \$8 a year. What do Newark barbers think of that? But Granville owns its own plant and can afford to give the people advantage of low water rental.

The campaign just closing has been made by the Advocate in a complete spirit of fairness to all. No abuse or mean slurs have appeared in these columns reflecting on the Republican candidates. All that sort of campaign method—everything in the shape of innuendo and mud-slinging—has been monopolized by the American-Tribune.

The many flings and covert attacks the American-Tribune has made on the Republican members of the City Council, in its fight for the water company against city ownership, causes not a little comment among thinking Republicans. An indignant Republican said to the Advocate today: "There is little inducement for an honest business man to make a campaign for election to the Council and then discharge the duties to the best of his judgment and abilities only to receive the reward of covert attacks by his party organ."

The attempt of Mr. Veach to dispose of facts and arguments against a renewal of the contract with his company by saying that the water company will not take advantage of any technicality to further its own success, will hardly go with the people of this city. We have had too much experience with franchise corporations to believe that they love the people so much as to give away any advantage they possess.

SUFFERED THREE YEARS. CATARRH OF STOMACH.

Miss Evelyn Morse writes from 651 Adams Street, Minneapolis, Minn., as follows:

"I suffered for nearly three years with catarrh of the stomach which no medicine seemed to relieve, until a friend advised me to try Peruna. Although skeptical, I tried it, and found it helped me within the first week. I kept taking it for three months, and am pleased to say that it cured me entirely, and I have had no symptoms of its return. I am only too glad to recommend it."—EVELYN MORSE.

Adia Brittain, of Sekitan, O., writes: "After using your wonderful Peruna three months, I have had great relief. I had continual heaviness in my stomach, was bilious, and had fainting spells, but they all have left me since using Peruna. I can now get around and do my housework, and think Peruna the greatest medicine I ever used."—Adia Brittain.

Miss Blevins, 102 Boliver street, Cleveland, Ohio, writes: "I was miserably ill. Peruna was the means of saving my life, for I suffered for months from catarrh of the stomach. Two bottles of Peruna cured me."—Mrs. Lizzie Blevins.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Ethel—Oh. That accounts for it. He said you impressed him very favorably.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and that it is taken internally in down from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer One Hundred Dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists.

MISER'S EXPERIENCE

Thought He Was Getting Free Advice, But Found He Was Not.

There is much amusement in Dresden Parliamentary circles over a little joke which was played on one of the oldest members. The gentleman in question, although somewhat miserly, is very popular. Recently he injured his finger, and, not caring to consult his own doctor, sought the advice of a brother member, an M. D., who told him what to do.

On the following day, however, the old gentleman received a bill for 10 shillings from the doctor for medical attendance. In his perplexity he confided in another colleague, a lawyer this time, who pointed out his liability and advised him to pay the bill.

The aged member's astonishment can best be imagined when he received later the lawyer's claim for 10 shillings for "advice given." He indignantly complained to a third member of this unbrotherly treatment, but but this third gentleman entering into the joke brought the matter before the committee which decides personal differences of the members.

Here the case turned against the accuser, and he was impeached for "refusing to acknowledge justified claims and gravely sentenced to—buy a case of champagne. The expensive finger is now quite well.

Newark People Can Decide.

You would not accept the word of an utter stranger as readily as that of a person whom you knew. The following statement is made by a citizen, perhaps a neighbor. Read it:

Mr. Amos Fry, shoemaker of Webb street, says: "For several years I was never free from pain, a constant nagging pain through my kidneys. It was dull and dead so that I had to get up and move about if I had been sitting for any length of time. I took several kidney medicines but I got no good worth speaking about. Through a notice in a local paper I commenced using Doan's Kidney Pills sold at Crayton's drug store. They did the work they promised for they completely took all that miserable pain out of my back."

LOWEST BIDDERS

Will Get the Police Jobs in Hazleton, Pa.—The Wages Are to be Reduced.

Wilkesbarre, April 5.—A new solution to the police question has been evolved by several of the councilmen at Hazleton and may be put in practice next week. It is for the men who desire to wear the official blue coat to bid for the privilege.

Hazleton has some twenty-five officers and there are so many applicants for the places that the new city officials, who go into office next Monday, are sure to make a number of enemies by disappointing 75 per cent of the applicants. This, and the fact that there has been trouble over the police question for some years, has led to the invention of the bid plan. It is proposed that the men who offer to do the work for the lowest price shall get the places, providing they are physically capable and furnish a bond for the faithful and honest performance of their duty.

The present force gets from \$50 to \$65 a month. It is expected, if the measure carries, that men may be obtained for \$40 a month, and that these men will not be governed by any political influences.

THE PENN. CHEMICAL WORKS, Philadelphia

A Few Reasons Why We can do Work at the Very Low Prices we do.

1st. Because we do not buy our materials from trusts and pay two prices for them.
2d. Because we buy in large quantities and pay cash, getting lowest prices and best discounts, and last but not least, because we are kept busy and do not have to charge for time wasted waiting for patients to come in.

THE W. C. T. U.

On Tuesday, April 1, the devotional
exercises were conducted by Mrs. Ab-
bot, who read the last chapter of
Matthew for the Scripture lesson, 19-
20th verses: "Go ye therefore and
read to all nations, baptizing them in
the name of the Father, and of the
Son and of the Holy Ghost." "Teach-
ing them to observe all things what-
soever I have commanded you; and
lo I am with you always, even unto
the end of the world."

Prayer and song closed the devo-
tional half hour. Miss Cool presided
at the organ. The President called
the meeting to order for business.
After reading the minutes the Sec-
retary called the roll which was answer-
ed with quotations from the Scripture
followed with reports of officers and
superintendent. Mrs. Brown, superin-
tendent of Prison Work, reported
meetings held every Sunday at 2:30,
and good reading was furnished the
prisoners. It is the aim of the Super-
intendent of Literature, Mrs. Watson,
to keep the wall pocket at the B. &
C depot filled with Temperance pa-
pers Mrs. Parks, Secretary of the L.
T. L. work, gave a very encouraging
report of the meeting held at Ply-
mouth Congregational church every
Sunday at 2:30. On next Tuesday the
devotionals will be led by Mrs. W. W.
Anderson.

Bible reading, Mrs. May.
Responsive reading, Mrs. Wright.
There will be important business
and the President requests every mem-
ber to be present.

Extracts from a letter-written by
Mrs. Lillian M. Stevens, National Pres-
ident:

"Beloved Comrades:—After the W.
C. T. U. congress held in connection
with the South Carolina Exposition,
Miss Gordon and I turned northward.
We spent Sunday, March 16th at the
Capital city of South Carolina, the
guests of Mr. and Mrs. Stanley. Sun-
day Miss Gordon addressed a child-
ren's meeting in the Baptist church
and accompanied Mrs. Stanley, Pres-
ident of a local union, and Mrs. Arm-
strong, state superintendent of work
among colored people. She also spoke
at the African M. E. church. In the
evening we were greeted by a large
audience in the Methodist church
South, presided over by the pastor,
Rev. Mr. Zimmerman. The next a
reception was tendered us in the pa-
rors of the Y. M. C. A. and early
Tuesday morning we went on to-
wards Hillsboro, O. We heartily wish
that all White Ribboners might have
a glimpse of Mrs. Elizabeth Trimble
Thompson, our beloved crusade lead-
er, as we saw her during our two
days stay in the Timble-Thompson
mansion. She welcomed us with a
same sweet, winsome graciousness
that has commanded our admiration
when we have seen her on the plat-
form. Physically, she is not as strong
as then, but her keen intellect is un-
dimmed, and her deep interest in our
precious cause unabated. She is a
careful reader of the Union Signal,
and keeps fully informed regarding
W. C. T. U. doings and achievements.
The home circle consists of her son,
Henry B., a born musician, who fur-
nishes his share of music for the
home and bestows careful attention
on all. Mrs. Mary Thompson Tuttle,
gentle and dignified artist and author,
and Miss Marie Thompson Rivers, a
genius also of a rare, beautiful type,
and who charmingly represents her
mother when she is unable to be pre-
sent at W. C. T. U., as is often the case
in these late days. At prayers the
morning after our arrival, Mrs. Rivers
played the Crusade Hymn, and Mrs.
Thompson read the Crusade Psalm.
As she read she often raised her eyes
and it seemed as though she were
pronouncing a benediction upon the
White Ribbon host. When she read
the words, "The Lord looses the pris-
oner," she said, "what a mighty help
that is to our women everywhere."
The next morning at 9 o'clock we
went to the Presbyterian church. It
is a fine structure of gray stone, erect-
ed on the site of the old Crusade
church. We were first taken to the
Crusade Memorial room, which not
long ago was defined in detail in the
Union Signal. This room is larger and
handsomer than we had thought. In
the center of it is the large mahogany
communion table of the old church,
and about it are the chairs given in
memorial. We lingered long before
the cabinet, unique and significant in
design and perfect in execution: an
artistic combination of valuable
woods from far away lands, and cedar
from the home of Mrs. Thompson.
The only picture here in the room (for
it is not yet complete in its furnish-
ing) is an excellent likeness of Miss
Willard, beautifully wrought on quar-
tere oak, given as a finishing touch

to the cabinet which it surmounts.
When the doors of the cabinet were
open we saw, as the central object
the Crusade Bible which has been at
many of our National gatherings. As
we stood there in the midst of the
Crusade, we said as the years go by
this room will be come more and
more a place of sacred interest; it
will be visited by thousands of those
who desire to know more of the be-
ginning of that society which is world
wide in its influence, and which will
never cease its work until the final
victory comes."

STUBBORN JUROR UPHELD

Judge Davis of Philadelphia Says He
May be Right and Even Wrong.

In reply to an inquiry by one of the
members of a jury which failed to
agree after being out all night Judge
Davis, in Common Pleas Court No. 5
took occasion to define the duties and
obligations of a solitary talesman,
whose conclusion differs from that of
the other eleven members.

"I was asked," said the Judge
"whether a member of the jury could
without violating his obligation, set
aside his own conscientious conviction
and conclusion from the testimony
under the charge of the court, for the
purpose of making an accord with the
eleven other members of the jury, who
differed from him. In answering that
question to all of you I desire to say
that the man who, under the solemn
oath of the obligation he took upon
entering the jury box would so act
would violate his obligation, insult his
manhood and degrade his citizenship."

"One who has reached an intelli-
gent conclusion from the testimony
affected, as the testimony always must
be, by the charge of the court, would
be a coward if he were to submit to
the dictation of the other members of
the jury, unless he were convinced
that his position was a mistaken one."

On the other hand, the man who re-
fuses to violate his conscience is a
brave man, compelling respect and de-
serving regard. It does not always
follow that the eleven men in the jury
who are jokingly called the eleven
stubborn men, are correct in their con-
clusion. It may well be that the
single juror is the one who had reach-
ed the proper conclusion under the
law, and the testimony. Majorities
are not always right; frequently the
minority is decidedly so."

Many a man can trace his ruin to
his enemies and many another man
could doubtless trace the origin of his
downfall to his pretended friends.

THE NEW FOOD

Recent Discoveries Along the Lines of
Food Science.

While other sciences have advanced
the past quarter of a century to a re-
markable degree, the science of foods
and their proper preparation has made
just as rapid strides.

The science of the proper prepara-
tion of foods has made a marked im-
pression on the last decade and pro-
gressive physicians everywhere ac-
knowledge that if one's food and hab-
its are correct there would be but
slight use for medicine.

Now comes forward an investiga-
tor, who, has made foods and their ac-
tion on the human system a study, has
discovered a new process of combin-
ing cereals and nuts into a pre-dig-
ested ready-to-serve food.

It has long been known that wheat
contained all the elements necessary
to sustain life indefinitely, when prop-
erly prepared, but it lacked the fat and
tissue building elements of nuts. Most
stomachs, however, are not capable of
digesting nuts, hence instead of prov-
ing a benefit they act just the reverse.

By a new process this food expert
exposes the grains to an intense heat
taking them through the first and
hardest stages of digestion. The oil
is extracted from the nuts, then emul-
sified and the cereals treated with the
pre-digested oil. This produced a
food with a delicious nutty flavor, con-
taining four times the food properties
of beef.

The new food is called Malt-Nut.
Its name designates exactly what it is,
a combination of malted grains pre-
digested and nut oils in an emulsified
form.

Grocers everywhere sell Malt-Nut.

TO YOUNG WOMEN

A Denver, Colorado, Young Woman
recently Wrote a Letter to Mrs.
Pinkham, which Aptly Pictures the
Condition of a Great Many Young
Women. Read What She Says:

"DEAR MRS. PINKHAM:—This is the first opportunity I have found to
write and thank you for the good your Vegetable Compound has done for me.
I feel better than I have for years. It seems a 'seven days' wonder' to my
friends. Where I used to be pined, everything is the opposite now, and there
is not a day but some one wants to know what I have done to make myself
look so well."

"Before taking Lydia E. Pinkham's Vegetable Compound I had
constant headaches, was constipated, bloated, eyes weak and watery, bearing
down pains, pains in the small of my back and right side; took cold very
easily, which always caused intense pain in the ovaries, and I did not want
to go anywhere or see any one. I was called cross, but I could not help
feeling as I did. I could not lift anything or do any hard work without
suffering for days afterwards. Menstruation lasted for eight or ten days,
the first three or four days being almost constant pain day and night."

Nothing in this wide world has relieved so much female suffering
as has Lydia E. Pinkham's Vegetable Compound; no medicine can produce
such positive proof of cures and good results; therefore, no other medicine
can be "just as good."

Office women are frequently afflicted
with sickness brought on by constant
work in one position. Perhaps in go-
ing to the office, they get their feet wet
and sit all day long with damp
shoes and stockings.

Nothing in the world
is so injurious. Wet feet,
hard work, and confined
positions have made in-
valids of a great many
robust and ambitious
young women.

A Richmond Girl's Experience.

"DEAR MRS. PINKHAM:—I have just purchased a bottle of Lydia
Pinkham's Vegetable Compound but am advised to write you
treating my case."

"I hardly know how to express myself. At times I feel well, and
than ten minutes I am actually wretched with headache, that tired feel-
ing, and so nervous that the sound of a door bell will make me start. I
walk two blocks without feeling fatigued. Menstruation has never
regular, have a slight discharge of leucorrhoea. I would like your
advice, and sincerely hope I may find relief in your medicine."—Miss CLARA FOWLE,
Richmond, Va. (Oct 26, 1900)

Statement No. 2.

"DEAR MRS. PINKHAM:—It gives me great pleasure to thank you for
benefit I received from your Vegetable Compound."

"When I wrote to you I could not go up-stairs or walk a hundred yds
without being completely fatigued out, but to-day I can easily walk two miles.
I was also very nervous and suffered from a misery in my back but the
troubles are all a thing of the past. I was at a loss to describe my feelings,
but now thanks to your Vegetable Compound I am a well woman."

"I advise all suffering women to write to Mrs. Pinkham, and I shall not
fail to recommend your remedies to my friends."—Miss CLARA FOWLE,
Richmond, Va. (March 26, 1901)

Miss Thompson's Pains are Cured.

"DEAR MRS. PINKHAM:—I want to tell you what Lydia E. Pinkham's
Vegetable Compound has done for me. For several years I had suffered
with loss of appetite, nausea, vomiting, constipation, palpitation of the heart,
headache, pains in nearly all parts of the body. My physician said it was
only indigestion, but his medicine did not help me any. I began the use of
your Vegetable Compound. I have taken four bottles and now those troubles
are cured. I cannot praise it enough."—Miss BELLE S. THOMPSON, Box 14,
Acushnet, Mass.

REWARD.—We have deposited with the National City Bank of Lynn, \$500,
which will be paid to any person who can find that the above testimonial letters
are not genuine, or were published before obtaining the writer's special per-
mission. Lydia E. Pinkham Medicine Co., Lynn, Mass.

A Merry Game.

To play "cat and mouse" the players stand hand in hand in a circle, the mouse being inside and the cat outside. They dance around, raising their arms and lowering them alternately, which gives the cat a chance to jump in at one side, while the mouse jumps out at the other.

The cat is now a prisoner and goes round "mouling," but as the dance continues she soon gets out and chases the mouse, who darts in to save herself. If she gets in by herself, the cat pays a forfeit, but if puss gets in also it is the mouse who has to suffer for it.

IN CLUBDOM

The Unity Reading Circle was entertained by Mrs. Burr Miller on April first at her beautiful country home north of town. The club, with their guests (each member was allowed one guest) were conveyed to Mrs. Miller's home in Hurlbush's wagon, and after some struggle with a heavy road and thick darkness, they reached there in safety. A fine supper was immediately served, after which the following program was given:

ALL FOOL'S DAY.

"To fool the crowd with glorious lies."—Tennyson.

Recitation, "An April Day"—Lulu Smith.

Origin of All Fool's Day—Helen Bower.

Reading, "The Voice of Spring"—Melba Burch.

Parody on "The Voice of Spring"—Lucy Connel.

After the program, slips of paper on which were written shuffled proverbs, were passed, with the request to arrange them properly.

Paper was again passed on which was written four words to be used in the writing of six lines of poetry on the subject of spring. Then closed an evening of delightful entertainment.

The Monday Talks met this week with Mrs. Martha Wright at her home on Granville street. After roll call and the secretary's report the following program was given:

The Making and Care of the Lawn and Walks—Mrs. C. L. Brooke.

Concerning Pantries—Mrs. R. F. Colville and read by Mrs. Robert Davidson.

In and About Our Stables—Mrs. George Crawford.

After recess, Queen Stella of the Gonzales, gave a talk on the subject of Gypsy life and customs.

The annual business meeting of the Review club was held this afternoon at the home of Mrs. Frank Hall, the first vice president. The result of the meeting will be given next Saturday.

On Friday afternoon, The Elks' parlors were the scene of a very brilliant and delightful affair. The occasion was the reception given by the Progressive and the Investigators club to the "Travelers" and Fortnightly clubs of Granville. The ladies were received at the door by Mr. Brown, the affable host at the club rooms. In the receiving line were Mrs. J. M. Ickes and Mrs. O. C. Jones of the Investigators, and Mrs. Benj. Franklin and Miss Sook of the Progressive club. Mr. Brown handed the keys of the club rooms to Mrs. O. C. Jones, and for the afternoon the Elks' headquarters belonged to the ladies. Through the courtesy of the lodge the parlors were beautifully decorated with palm and Easter lilies.

Mrs. Emmet Baugher and Miss Lucy Wyeth poured coffee at a handsomely appointed table, and Miss Helen Jones and Miss Bertha Fulton presided over the punch bowl, Marsh's orchestra enlivened the scene with sweet music. There were about seventy-five guests present.

The Altretta club gave one of their charming dances on Tuesday evening. Those who enjoyed the hospitality of the club were: Mr. and Mrs. Charles Miller, Mr. and Mrs. Gardner, Mr. and Mrs. Kellenberger, Mr. and Mrs. Chas. Rhoads, Mr. and Mrs. Linn Wilson, Mrs. Orr, Mrs. Smith, the Misses Ruby Jones, Lillian Franklin, Lucy Blood, Stella Howard, Mabel Phillips, Lillian Latimer, Carrie Hilliard, Mabel Miller, Ida Moore, Shirley Pitser, Bessie Reid, Justina Gleichauf, Daisy Burner, Esther Veach, Ethel Pitser, Atta Beecher, Edith Gorby, Josephine Veach, Louise Beecher, Hazel Thomas.

Browne, Charles Matthews, Sam Browne, Dan Felix, Charles Flory, Fred Mosteller, Otto Myer, Ralph Wyeth, Roy Lane, of Toledo, Mr. Stair of New York city, and Mr. Walker of Columbus.

The Coterie Club was delightfully entertained by Mrs. J. W. Hornby. The following program was given:

Answer to roll call, quotations from Bryant.

Paper, William Cullen Bryant, Mrs. Eiman.

Select reading, Mrs. Agnew.

Current events, Mrs. Hornby.

Critic, Mrs. Conrad.

The next meeting will be with Mrs. Moore, April 18. The guests of the club were Mesdames Larimore, Legge, Rugg, Nash and Jones.

The Investigators held a business meeting on Monday at the home of the president, Mrs. J. M. Ickes. The following officers were re-elected:

President, Mrs. Joseph M. Ickes.

Vice Pres., Mrs. John B. Woolson.

Rec. Sec., Mrs. Charles W. Miller.

Cor. Sec., Mrs. E. F. Appy.

Treasurer, Mrs. Wm. D. Fulton.

The executive committee for the coming year is composed of Mrs. Earl Collins, Mrs. Will Davis, Jr., and Miss Helen Thomas.

This fitting quotation appears on the last page of the program:

"Know ye the land where tall and green. The ancient forest oaks are seen, Where the old Rhine-waves, sounding run Through vineyards gleaming in the sun? We know the lovely land full well: 'Tis where the free-souled Germans dwell."—Uhland.

The Progressive club in its usual happy manner, celebrated President's day at the home of Mrs. Chas. Smith on North Third street. There is no program printed for this day on the calendar, but this quotation adorns the page:

"For the sweetest of smiles is the smile as we part When the light round the lips is a ray from the heart."

The entertainment opened as usual with roll call responded to with quotations, and the reading of the minutes of the last meeting, also the minutes of President's day a year ago. Mrs. Harry P. Scott, the retiring president, made a farewell speech, followed by a short speech of acceptance by Miss Sook, the president-elect. Mrs. Elmer Baird, in the name of the club, presented Mrs. Scott with a bunch of roses, the club flowers.

Mrs. Stratton then gave a reading. Part second consisted of a play entitled "The Lippincott Square Church Coup," with the following cast:

Mrs. Wilkins, Pres. Missionary Society, Mrs. Chas. Stevens.

Members:

Mrs. Robinson, Mrs. Zentmyer.

Mrs. Smith, Mrs. Miller.

Mrs. Brown, Mrs. Chase.

Mrs. Jones, Mrs. Scott.

Mrs. Harper, Miss Pitser.

Miss Fiske, Mrs. U. O. Stevens.

Sarah, servant, Mrs. Geo. Franklin.

Rev. Belford Clark, clergyman in charge Issaquia Mission, Manitoba.

Miss Veach.

Madge Wilkins, Miss Franklin.

Janey, Carrie Zentmyer.

Johnny, Miss Gorby.

Scene 1—Mrs. Wilkins' drawing room. Meeting of Missionary Society of Lippincott Square church, New York.

Scene 2—Rev. Clark's study, Issaquia, Manitoba.

Scene 3—As in Scene 1.

The play was irresistibly funny and closed with a large contribution for the cause of the missions. An elaborate supper was served, at the close of which the following toasts were given: Toast Mistress, Mrs. Oscar Stevens.

"To the Mother in the Club." Miss Gorby.

"Sweethearts, husbands, lovers ever." Mrs. Benj. Franklin.

"Our Sister Clubs." Mrs. Laura Franklin.

"Our Presidents." Mrs. Mabel Swisher.

The place cards, the work of Miss Ethel Pitser and Miss Anna Franklin, were a three fold booklet on which were written the toasts, the cover being a pink rose done in water color.

The following were those present: Mrs. Elmer Baird, Mrs. Frank Chase, Mrs. Benjamin Franklin, Mrs. George Franklin, Jr., Mrs. Fred Jones, Mrs. E. S. Miller, Mrs. H. P. Scott, Mrs. Chas. Smith, Mrs. Charles Stevens, Mrs. G. P. Stratton, Mrs. Oscar Stevens, Mrs. Harry Swisher, Mrs. Wm. Zentmyer, Mrs. Lawhead, Mrs. Charles Wesson, Mrs. Fred Evans, Mrs. Emmet Baugher, Mrs. George Taylor, Mrs. Woodbridge, Mrs. Tucker, Mrs. W. Symons, Mrs. George Webb, Mrs. Fred Black, Mrs. Chas. Miller, Mrs. Clarence White, Mrs. Sook Smith, Mrs. Annie Smith, Mrs. Goodwin, Mrs. Ford Crane, Mrs. Ed Brown, Mrs. Cordray, Mrs. Omar Crane, Mrs. Gorby, Mrs. Will Horton, Misses Frances Smith, Julia Smith, Esther Veach, Josephine Veach, Carrie Zentmyer, Emma Spencer, Gertrude Sook, Ethel Pitser, Edith Gorby, Anna Franklin, Louise Coad, Lizzie Wilson, Ida Moore, Shirley Pitser, Mary Miller, Minnie Montgomery, Nellie McCune, Mae Smith, Bessie Felix, Miss Sample and Miss Hurd.

Mr. and Mrs. John Stewart delightfully entertained the following persons at a six o'clock dinner at their home rear of 24 South First street, on Friday evening: Rev. and Mrs. J. C. Schindel, Rev. Dr. Steck of Springfield, O., Rev. Dr. C. W. Sifferd of Carthage, Ill., and Mr. and Mrs. W. G. Taaffel.

Mrs. B. F. Patt very charmingly entertained her Sunday school class with a tea at her home on West Main street, on Thursday evening. Covers were laid for nine. The place cards were slips of paper with quotations written on, regarding famous women of the Bible. This was especially enjoyed and was instructive as well. Those present were Bright Hilliard, Mabel Racinger, Alice Gray, Elizabeth King, Roxie Allen, Katie Frye, Beatrice Stouffer and Ida Davis.

ADD UP THE GAINS.

In consumption, as in other diseases, the results secured from continued treatment with Scott's Emulsion come from the accumulation of many small gains.

A little gain in strength each day—a little gain in weight each day—if continued for weeks, amounts to something.

Scott's Emulsion can be taken for weeks and months without the least disturbance. It gives itself time to do good. It makes new flesh and strengthens the lungs.

FROM HEADQUARTERS.

Manager Blood Wine Company Replies to Numerous Local Inquiries.

SOME INTERESTING FACTS MADE PUBLIC FOR THE FIRST TIME.

The following letter has been received by us, and will no doubt interest many of you on account of containing the replies from the "Blood Wine" company to the questions asked by several of our citizens.

DISCOVERER OF BLOOD WINE.

TO THE EDITOR:

Dear Sir—We have had a great many letters from people of your city since "Blood Wine" was first introduced, and while we have tried to reply direct to each inquiry, there may be some we have overlooked. If so, we wish to apologize; and when we say that our mail amounts to over a thousand letters a day, we are sure that our readers will pardon us, and accept this letter in lieu of a personal one. Many people ask us if "Blood Wine" will cure consumption. To these we will say that as far as we have been able to learn, excepting in a few cases, where the disease was of old standing, and advanced to a state where the lungs were literally decomposed, before our treatment was commenced, "Blood Wine" has cured this and the allied diseases, which include coughs, colds, bronchitis, pneumonia, catarrh of the head and throat, and weakness of the lungs. It will heal the lungs and relieve the tender feelings.

Many have inquired about kidney troubles—to all so affected we can truthfully recommend "Blood Wine." Excepting in advanced stages of Bright's Disease it is almost certain to correct the wrong activity and restore normal conditions, and we have known it to bring about

remarkable cures of Bright's Disease.

To the elderly gentleman who states that he has chronic constipation, brought on by close office work and sedentary habits, we would suggest the immediate use of "Blood Wine." Take in moderate doses at first; to assist the medicine, take some form of exercise after arising in the morning, if only for a few minutes. You are sure of being benefited.

To the woman who signs herself only "Mrs. B."—we would say—take "Blood Wine" in the morning before breakfast as directed on the bottle. We are sure you can retain it. If you noted a slight burning in the stomach at first, eat a very light breakfast. You will soon be so you can take a hearty meal and enjoy it, and you will find the color will return to your cheeks in a week or so, and your lameness, soreness, and dragged out feelings will all disappear. Then you will be able to do your household work.

To Mr. R.—We cannot do anything for your rupture. This is an affliction outside the reach of "Blood Wine," and should be submitted to a specialist skilled in such matters.

In conclusion we will advise all who are interested in "Blood Wine" to call at their druggists and they will get more complete and definite information than we can give in this brief letter. You can sample "Blood Wine" there free of charge. Give the literature and get some facts that will appeal to you seriously. We could fill this entire page with letters of endorsements, and words of praise from thousands of sufferers who, by the aid of "Blood Wine" have been lifted out of the clutches of disease and restored to full health and vigor. It is our aim to make friends everywhere. We are careful to make honest statements, and not mislead anyone. "Blood Wine" is not a cure all, it has no supernatural characteristics or the power to make the grave give up its dead. But in several forms of disease, all those for which it is recommended, it will bring about thorough, permanent, speedy cures in ninety-nine cases out of every hundred.

Yours truly,

Plain Matter-of-Fact Statements--Direct--Convincing--and Straight to the Point.--The Merits of Dr. A. W. Chase's Nerve Pills Told by Newark People in a Way that Carries Conviction.

WEST HARRISON STREET

Mrs. E. D. Events of No. 51 West Harrison St., Newark, O., says "Dr. A. W. Chase's Nerve Pills acted wonderfully with me. Owing to neuralgia I was all broken down, very nervous and having hard attacks of nervous sick headaches, any excitement bringing them on. It was suggested that I get the Nerve Pills at Bricker's City Drug Store and try them. I am more than glad I did so as I feel strong again, nerves steady and plenty of energy. Those sickening, prostrating headaches are a thing of the past and I am necessarily very much pleased with the Nerve Pills and its work."

SOUTH SECOND STREET

Mrs. L. McFarland of No. 40 1/2 S. Second street, Newark, O., says "Dr. A. W. Chase's Nerve Pills are a fine nerve tonic. They make ones nerves strong and steady--their sleep natural and their strength good where one is weak, nervous and sleepless. The Nerve Pills are just the thing and I shall keep Mr. Bricker of the City Drug Store in mind should I need more."

LODGE NEWS

Modern Woodmen.

The greatest meeting of Modern Woodmen of America held in Ohio in recent years is scheduled for Newark the afternoon and evening of May 14. The Newark lodge will on that occasion initiate a class of 85. Special trains will be run from a number of towns in central Ohio. It is probable the Coshocton lodge will be represented by a large delegation. The local branch of the order bids fair to become a strong institution--Coshocton Age.

Cedar Camp Modern Woodmen of America met Wednesday evening with 86 members present. Four candidates were initiated and fifteen applications were balloted on. Quite a lot of business was transacted and the work being put on every meeting is helping the attendance greatly. The forester team is going to Coshocton and McConnellsville in the near future, to put on the work, and the way in which our team can put it on is making them popular throughout the state. Woodcraft is booming here now and the race to secure members is becoming very warm. There will be several candidates next Wednesday night and the work will be put on in full. Cedar Camp now has over 600 members.

Masonic.

At a meeting of Acme Lodge, No. 554, F. & A. M., to be held on next Thursday night the E. A. and the M. M. degrees will be conferred on several candidates and it is important that as many of the members as can possibly do so, be present.

There will be another meeting of St. Luke's Commandery on next Tuesday night for practice and it is desired that as many of the members as can do so will be present.

A stated convocation of Warren chapter No. 6, R. A. M., will be held on next Monday night.

Odd Fellows.

There was a good attendance of the members of Newark lodge No. 600 I. O. O. F. on Monday night, and considerable business of importance was transacted. Two petitions for membership were received and acted on.

One candidate was initiated at the meeting of Olive Branch of Odd Fellows on Tuesday night.

At the meeting of Mt. Olive Encampment No. 12 I. O. O. F. held on Thursday night there was work in the Golden Rule and Royal Purple degrees. Eight petitions for membership were received.

Newark lodge No. 423 I. O. O. F. held a big meeting this week, conferring the initiatory degree on one candidate. Next Monday the initiatory degree and the first degree will be conferred. All members and Odd Fellows invited.

Knights of Pythias.

There was a well attended as well as interesting meeting of Roland lodge, No. 305, Knights of Pythias, held on last Wednesday evening. In addition to the other business transacted one application for membership was received.

At the meeting of Newark lodge, No. 13, Knights of Pythias held on Thursday evening, there was a good attendance of the members and considerable business of importance was transacted, among which was work in the first rank.

Ben Hur.

Alpha Court, tribe of Ben Hur, of this city, will hold its next regular meeting on Thursday evening, April 10, at which there will be several candidates for initiation.

Ancient Order Hibernians.

The Ancient Order of Hibernians of this city have made arrangements to meet here after in the Knights of Pythias hall in the Anker building. They will meet on the second Friday of each month instead of on the first Friday of the month as heretofore.

A. O. U. W.

Golden Rod lodge No. 100 at its regular meeting last Monday night initiated two candidates and several applications for membership were referred to the investigating committee.

At its regular meeting next Monday night there will be work in both degrees and also the new by-laws will come up for adoption and it is desired that all the brothers will be present.

Meter Rates for Water.

Several citizens who have come to the Advocate with their receipts showing that they paid 25 cents per 1,000 gallons desire that publication be made of rates in some other cities. The Advocate has at hand the meter rates charged for water in the following cities:

Sandusky	5 cents per 1,000 gallons
Steubenville	5 cents per 1,000 gallons
Dayton	8 cents per 1,000 gallons
Springfield	6 cents per 1,000 gallons
Findlay	12 cents per 1,000 gallons

Citizens of Newark who are paying 25 cents per 1,000 can make their own comments.

If the people of Newark stop to think of it, they will come to the conclusion that \$300,000 of 4 per cent bonds for a water system owned by the city and FROM WHICH THE CITY WILL GET THE PROFITS, will be cheaper by far, from a money consideration, than a renewal for another 20 years of the present contract with the old company--for this is what the present contract means and only this. Will the city own the water works or will the water company continue to own the city?

Here is a significant question that is just now uppermost in the minds of hundreds of Newark people. If the water works company is losing money in operating its plant as is claimed by figures given in Mr. Veatch's argument, why is the company making such a desperate effort to secure another 20 years contract? If the capitalists who have their money invested in the plant are losing money, the average citizen wonders why they want to keep on losing money.

The water supply of a city is necessarily a monopoly and for sixteen years this city has been, as to water rates, in the grasp of one of that very character. The defeat of the present proposition means another 20 years of high rates for the people and an increasing annual rental for fire protection. It is the water company which is urging the delay for it means the perpetuation of its profits and its grasp on the people.

Exports of tin, gambier, rubber, gutta-percha, copra, coffee, spices, etc. from Singapore can be put into the American manufacturer's hands at \$5 per ton less than the price paid by the manufacturer of Europe.

Genius is the ability to get other people to carry out your ideas.

It is said that liquor improves with age, but some men don't care to wait.

Proposed City Hospital.

The hospital proposition to be voted on next Monday, has met with general favor with our people, is a meritorious one and should carry.

A city hospital owned and controlled by the city, conducted on a non-partisan, non-sectarian basis, is greatly needed. It will furnish to all, rich and poor alike, the best appliances and facilities for fighting disease and for the recovery of health.

It will require a two-thirds vote to carry the question.

A separate ballot will be furnished each voter, who, to vote in favor of the hospital, should mark it thus:

X For the Issue of Hospital Bonds.

Let there be a full vote in favor of the hospital.

House cleaning generally makes a place for something new to grace the parlor. What better could you select than one of those celebrated insurances. Knabe, Behr Bros, Blasius, Vose, Regent and others. Cash or easy terms. W. D. Munson Sons' Music Co.

One, two or three more years of oppressive water rates will not only better prepare us to vote intelligently on this question. Our people will never vote to renew the old contract if they know it. A vote in favor of the present proposition will commit the city to the following course:

- 1 Ownership of water works
 - 2 Lower water rates
 - 3 No contract with old company.
 - 4 Lower taxes from the profits.
- Now is the time to settle these questions.

Terrible Tortures and Death Results

From Acute and Chronic Rheumatism When Neglected in Spring.

PAINE'S Celery Compound

The Great Vanquisher of All Forms of Rheumatism.

The Marvelous Cure of Mrs. Cook, of Gardner, Kansas.

Rheumatism terrible in its acute and long enduring in its chronic form is one of the most baneful diseases that human beings suffer from. It is a disease that will not bear neglect for if not treated promptly will remain till death to harass torture and make life miserable.

Rheumatism is also a constitutional disorder and hereditary. Because of an inactive condition of the kidneys and bowels the blood is not purified, and an acid poison is formed and deposited in the muscles and joints and this causes the inflammation and in tense agonies that thousands are obliged to endure. Too often the effects of rheumatism are fatal, especially when the dread disease affects the heart then death is sudden. Many other serious complications result from this terrible disease, such as pneumonia, pleurisy, meningitis, and diaphragmatitis, and these often prove rapidly fatal.

Racked and tortured reader, what are you doing to get rid of your danger? Physicians frankly admit their inability to cure. The ordinary medicine of the day may give you relief for a few hours or days; they cannot banish the disease from your blood, joints and muscles, they cannot take the swelling from your knees, elbows, or wrists, or make supple the stiffened and twisted limbs. You cannot longer afford to experiment, death is the sure result of experiment and neglect.

Today, your only hope lies in the immediate use of Dr. Phelps' wonderful rheumatism banisher--Paine's Celery Compound. This tested and world-famed vanquisher of rheumatism, neuralgia, and other troubles that arise from impure and poisoned blood is now fully recognized by the medical profession as a positive and unfailing cure. The following important letter sent by Mrs. Cook, is but one of the many thousands received from prominent and well known people in every State of the Union, who have been cured by Paine's Celery Compound. Mrs. Cook says--

"I was sorely afflicted with rheumatism some time ago, so much so that I was unable to go about the house. I had to be carried. I tried all kinds of medicines and hummers to no effect. For months I was helpless, unable to turn myself in bed, and suffering with pain which was almost unendurable. Finally, by chance I noticed an advertisement of Paine's Celery Compound and concluded to try it. After using one bottle it seemed to be helping me, and I continued to use it until I had no more rheumatic pains. Since then I have been able to do my housework and have been free from rheumatism."

Bobbie's Question.

The scholars were standing in two little rows. The sun through the window shone brightly. While soft little airs on the tips of their toes. Came tripping with April delight. And Bobby looked as they gently went by. They told him a tale of the spring. And talk of the clouds in the happy, blue sky. And all that the summer would bring.

He heard not the voice of the teacher at all. His thoughts had gone out with the sun. He stood with the others, his back to the wall. Absorbed till the lesson was done. "Now ask me some questions," the teacher had cried. "Just any that chance to occur." Bob's fingers went up, and he solemnly sighed. "How long till the holidays, sir?"

How Dorothy Showed Her Sympathy.

Little Dorothy takes a trip alone in the horse cars every morning under the conductor's care on her way to the kindergarten. On her return at noon she always has some story to tell of what she has seen on her journey. "What did you see in the car this morning, Dorothy?" asked her mamma at dinner one day. "Why, mamma," said the sweet tempered Dorothy sorrowfully, "I saw a man and woman sitting side by side and quarreling. So I went and sat between them, for I felt so sorry for that poor man, mamma." "You're a Companion."

For Bruises

Omega Oil

It would hardly be truthful to say Omega Oil cures Bruises and Sprains and Strains. Nature herself does most of the curing, but the Oil stops the pain while the bruised place is being cured. The pain is what annoys you, and Omega Oil must be given the credit for fixing you up so you will not suffer. Omega Oil soothes, softens and comforts any pain you apply it to. If the pain is not too great, the Oil is to be well rubbed in. This sets up a good circulation of the blood, and the result is always beneficial. Besides rubbing Omega Oil into the pores, some of the Oil should be bound around the ailing part.

Omega Oil is good for everything a liniment ought to be good for.

AMUSEMENTS.

The important event of the present theatrical season from a musical standpoint will be the engagement of the Klaw & Erlanger Opera Company, presenting de Koven and Smith's successful "Foxy Quiller" with Jerome Sykes in the title role. Eleanor Kent, charming young woman of great ability, is the prima donna of the organization. Julius Steger, the handsome baritone, Louis Cassavant formerly in the Castle Square Opera Company, Adolph Zink, the Lilliputian comedian, and Harry MacDonough, who has sung many roles and always with distinction, are prominent members of the cast. There is a chorus of voices carefully selected on account of the superb choral work necessary in the first act and there is a special orchestra under the direction of Signor de Novellis. "Foxy Quiller" is to be presented at the Auditorium next Monday (election) night.

Gray Hair a Crime?

Thousands of men and women are turned out of positions and many fail to secure situations because their gray hairs make them look old. This need not be.

Hay's Hair-Health

makes age halt and keeps thousands in employment because it takes years from their appearance. HAIR-HEALTH will positively restore gray, faded or bleached hair to its youthful color. It is not a dye. Its use cannot be detected. Equally good for men and women.

Gentlemen—At forty my hair and mustache began turning gray. I tried on my road to his place because my gray hair made him look older than he was. Following by his experience, I began using Hay's Hair-Health, with the result that I have the same dark-brown curly hair that I had at 21. Have held my position, although many younger men, whose only fault was their gray hair, have been dismissed. I thank you for my position.

Figures As To Meter Rates.

Newark water consumers who call at the Advocate office make criticism of this statement in Mr. Veach's article on the water works question, representing what he alleges to be the gross receipts of the water company for water for the past year. We herewith give Mr. Veach's figures:

"The gross earnings of the water company for the last fiscal year (after being in business 15 years) were considerably less than \$30,000, being \$29,164.29, including the \$12,000 received from the city for hydrant rentals; deducting the \$12,900, we have \$16,264.29 representing the total earnings for the sales of water proper. The total gallons of water pumped for the last year were 512,000,000. The gross sales of this water amounted to \$29,164.29, as above mentioned. Eighty-two millions, or 16 per cent of the 512,000,000 gallons, was sold by meter for \$9,473.36, slightly less than eleven (11) cents per 1000 gallons. The remaining 430,000,000, or 84 per cent of the 512,000,000, including the city hydrant rentals of \$12,900, produced a total earning of \$19,690.93, or about 4 1/2 cents (458) per 1000 gallons. By dividing the gross earnings, \$29,164.29, by the total of 512,000,000 gallons, it is shown that the water company earned not quite six (6) cents (5.70) for each 1000 gallons of water pumped during the year."

How the water company only realizes \$9,473.36 out of 82 million gallons is what puzzles the people who are coming to the Advocate office with their receipts showing they paid 35 cents per 1000 gallons.

The meter rates fixed in the contract with the city are as follows:

100 to 500 gallons per day, 35 cents per thousand.
500 to 1000 gallons per day, 30 cents per thousand.
1000 to 2000 gallons per day, 25 cents per thousand.
2000 to 4000 gallons per day, 20 cents per thousand.
Over 4000 gallons per day, 15 cents per thousand.

It is fair to presume that a fair average of the above rates would be 25 cents per 1000 gallons, as that is the medium figure between 35 and 15. But place it at 20 cents per thousand, and we see that the result would be \$16,400.00. Either Mr. Veach's figures, therefore (\$9,473.36) are wrong, or else somebody is getting water at lower rates than these complaining consumers pay.

The statements of Edward H. Everett, William W. Wehrle, J. R. Goldsborough, Julius J. D. McNamar, Rhinehard Scheidler and Pratt & Montgomery in yesterday's Advocate advanced reasons why the people should vote for the issue of water works bonds on Monday created a very favorable impression throughout the city and convinced many who had imagined that the water issue was a political one, that it is not political but is a business proposition pure and simple.

Municipal ownership of the electric light plant has been a great success in Newark. The city has far better light and much cheaper light than when the city bought its light from a private company. The same will be true of the water works. If the city is given authority by the people to buy or build a water system, the people will have cheaper water and better protection against fire.

When the A.T. applies the epithet of "GANG" to the City Council, in the warfare that paper has been making against the water works proposition, it stigmatizes the Republican members as distinctly as it does the Democratic members. This is perfectly well understood on all sides.

Sixteen years of excessively high water rates, so high that only twenty per cent of our people can afford to use water at all, is not sufficient. We need two years more time in which to arrive at the conclusion that a change would be beneficial—that is, according to the Water Works Organ, the American-Tribune.

Natural gas companies, water companies, and all franchise companies, are doing business solely in the interest of the people, and not with the intention of making money out of them at all. And the A.T. seems to think it can make the people of Newark believe this.

FISH AND GAME

Bills Made a Special Order for Next Tuesday—Canal Forces Have a Temporary Setback.

Columbus, O., April 5.—The Archer game bills were made a special order for next Tuesday morning. The Fraser bill, to provide for appeals in misdemeanor cases, was reconsidered but the house refused to make it a special order and it will probably rest on the calendar until the end of the session.

The canal forces suffered another temporary setback in the senate yesterday. The consideration of the substitute to the Painter bill, providing for the maintenance and operation of the canal systems, which had been made a special order for Thursday was postponed until next Tuesday afternoon. The friends of the measure made a determined effort to bring it to a vote, and the fight was a sharp one.

When the bill had been read the third time, Mr. Harding moved to amend by striking out section 2 which requires the state in case of the future abandonment of the canals to purchase the worthless old boats. He said that he felt constrained to offer the amendment on account of the disposition to force the bill upon the senate and because such little study as he had been able to give the measure had convinced him that the provision in question should be stricken out.

Mr. Hosea led the fight for the bill. He said that boat owners ought to be insured against loss, in case of canal abandonment, but based his principal argument upon the alleged danger of the bill's defeat if it is returned to the house for concurrence in senate amendments.

Mr. Decker moved that consideration be postponed until Tuesday afternoon and Mr. Archer argued for immediate action. Mr. Decker's motion was carried by a vote of 15 to 14 and considerable ill feeling was displayed by the friends of the bill.

JAS. H. MONTGOMERY, M. D.

In a Carefully Prepared Article Recommends Dr. D. Kennedy's Favorite Remedy.

In a recent issue of the New York Magazine of Sanitation and Hygiene, the recognized authority on all matters pertaining to health, James H. Montgomery, M. D., says editorially:

"After a careful investigation of Dr. David Kennedy's Favorite Remedy, a specific for kidney, liver and bladder troubles, rheumatism, dyspepsia and constipation with its attendant ill, we are free to confess that a more meritorious medicine has never come under the examination of the chemical and medical experts of the New York Magazine of Sanitation and Hygiene. In fact, after the most searching tests and rigid inquiry into the record of Dr. David Kennedy's Favorite Remedy, it becomes a duty to recommend its use in unequivocal terms to every reader of this journal whose complaint comes within the list of ailments which this remedy is advertised to cure. We have obtained such overwhelming proof of the efficacy of this specific—have so satisfactorily demonstrated its curative powers through personal experiments—that a care for the interests of our readers lead us to call attention to its great value."

The Child—"Naw. First thing I heard was pa saying bad words at the alarm clock 'cause it went off same as week days."

EFFICACIOUS.

Doctor—"Well, did that dose I told you to take scatter your cold?"
Patient—"It did, beautifully. When I saw you last the cold was only in my throat, and now it is scattered all over me."

SO-CALLED, ONLY.

Visitor—"Who was that man who made so much noise?"
Broker—"Oh, that was my client partner."

PROMOTION.

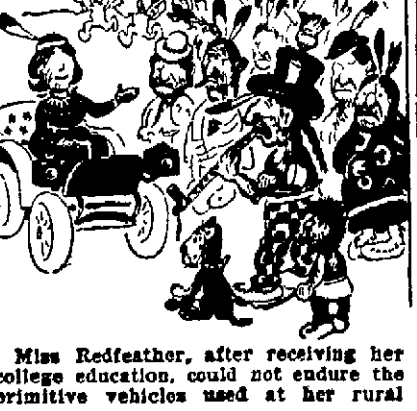

Deacon Footy (who has just slipped on a banana peel)—"Horror! There's that Miss Primy! And now she'll go around telling that I'm practicing to be a clown again."

MORE HOME CULTURE.

Miss Redfeather, after receiving her college education, could not endure the primitive vehicles used at her rural home, so—

She sent for her automobile, and—

As a result the progressive younger element grew ambitious and—

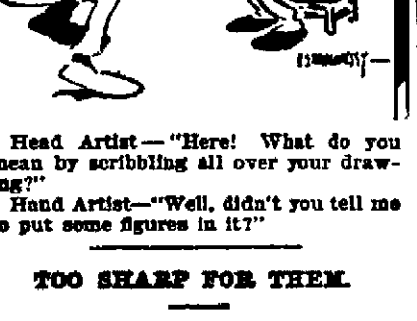

Got up a few effective imitations.

LITERALLY TAKEN.

Head Artist—"Here! What do you mean by scribbling all over your drawing?"
Hand Artist—"Well, didn't you tell me to put some figures in it?"

TOO SHARP FOR THEM.

Parson Chevrolet—"Say, Judge, translate this here for me. It's my Hiram's college diploma, and I think they've written a lot of things in there about him they don't want me to know."

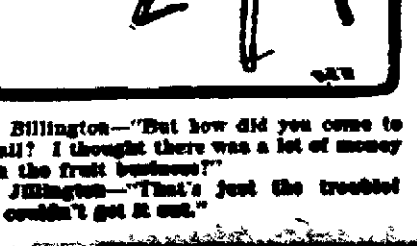

IN TO STAY.

Billington—"But how did you come to fail? I thought there was a lot of money in the fruit business!"
Billington—"That's just the trouble! I couldn't get it out."

Uncle—"What do you come to me for? I thought you boasted that you could make your own money!"
Charles—"So I could, if some of the other fellows hadn't reeked the best."

EDUCATIONAL ASSOCIATION.

Tom Brier—"Yes, Brickleigh and I were in the same class at college."
Sniffkins—"Oh, were you, really? How interesting! What class?"
Brier—"Oh, heavy-weights!"

STREET EVOLUTIONS.

Drillmaster—"Now, men, watch me and do exactly as I do in every respect."

"Ah, good day, Miss Swellton!"

"Halt! Hang that dog! And—"

"Confound you idiots! What do you mean by mocking your commanding officer?"

TRIUMPH OF ACTING.

Richard (in village hall out west)—"A horse! A horse! My kingdom for a horse!"

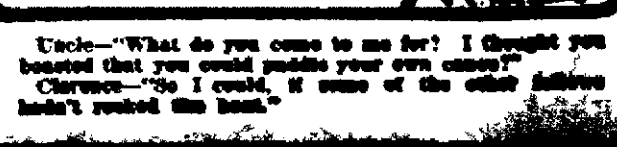

Local Horse Sharps (after the play)—"Here's your chance for a horse, mister. They say you were yelling for 'one inside there.'"

HOW IT HAPPENED.

Uncle—"What do you come to me for? I thought you boasted that you could make your own money!"
Charles—"So I could, if some of the other fellows hadn't reeked the best."

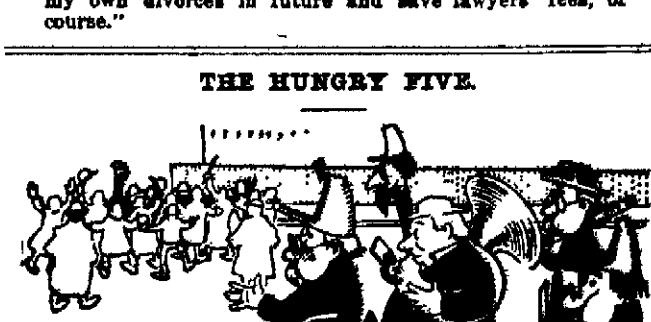

PREPARATION.

Mrs. Firstly—"But why are you studying law, dear?"
Mrs. Oldburd—"That's easy. So that I can attend to my own divorces in future and save lawyers' fees, of course."

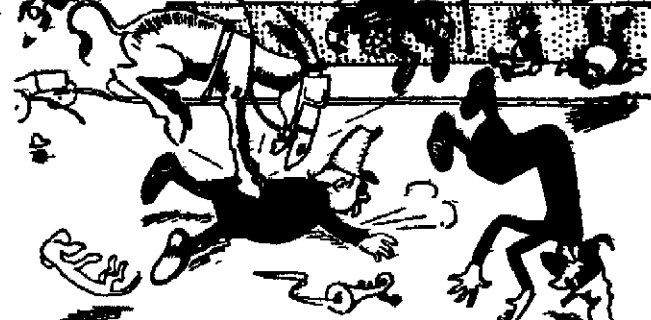

Leader Tootlemus—"Ah, dere is one assembly. Itt mustt be der prince, alrecty. Ve mustt—"

"Play somedings exciting, undt maybe ve vill ged—"

"Vun very large tip, yet! Bolices! Donnerwetter!"

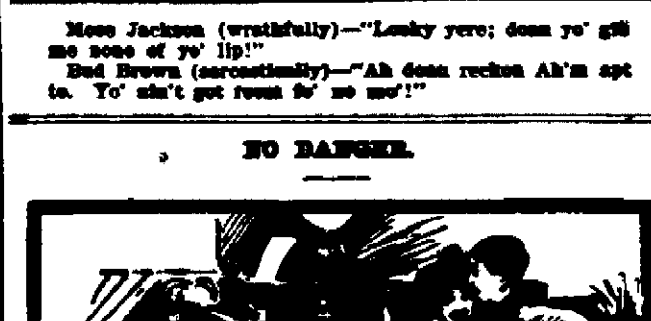

Master Hand-De-Hanged—"Now an these ruffs be not starched strongly there will be a goodly mix-up, I wis and trow."

PRELIMINARIES.

Little Reginald—"Do you know why I like chocolate candy best?"
Miss Mabel Primrose—"No, I don't, Reginald."
Little Reginald—"Don't you want to know?"
Miss Mabel—"Why, yes. Why is it?"
Little Reginald—"Because when men see you they think you are chewing tobacco."

Miss Jackson (wretchedly)—"Lucky yere; does ye get me some of ye' lip?"
Bud Brown (accidentally)—"Ah does reches Ah'm apt to. Ye sh'd get round to me too!"

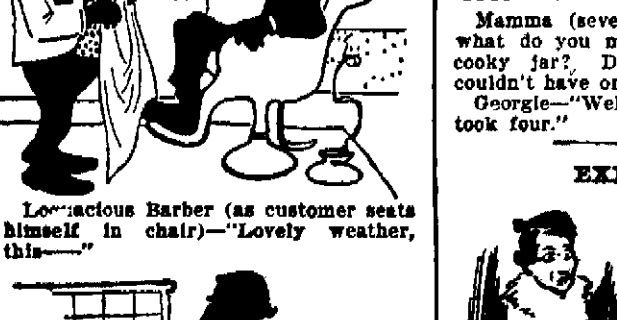

Wills—"Tut me, darling, that nothing can come between us!"
Mrs. Wills—"Why, you silly, of course nothing can. There isn't!"

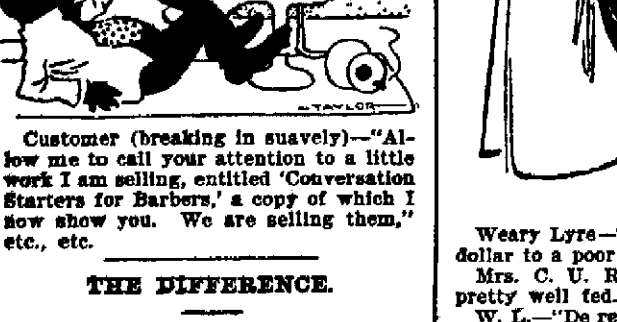

REVERSED CURRENT.

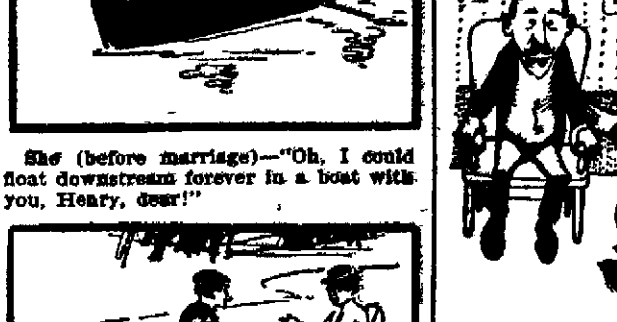

Lo-sacious Barber (as customer seats himself in chair)—"Lovely weather, this—"

Customer (breaking in suavely)—"Allow me to call your attention to a little work I am selling, entitled 'Conversation Starters for Barbers,' a copy of which I now show you. We are selling them," etc., etc.

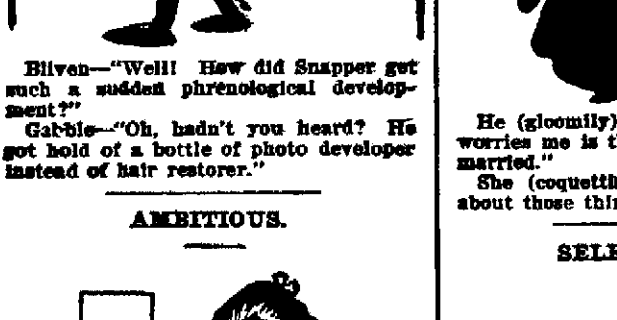

THE DIFFERENCE.

She (before marriage)—"Oh, I could float downstream forever in a boat with you, Henry, dear!"

Same (after marriage)—"How clumsy. If you row! For heaven's sake, get some style about you or put me ashore."

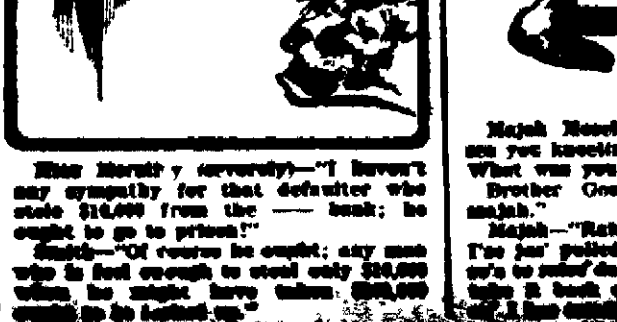

GOT WISE.

Bliven—"Well! How did Snapper get such a sudden phenological development?"
Gabbie—"Oh, hadn't you heard? He got hold of a bottle of photo developer instead of hair restorer."

AMBITION.

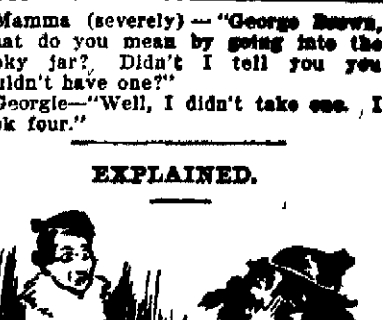

FIT PUNISHMENT.

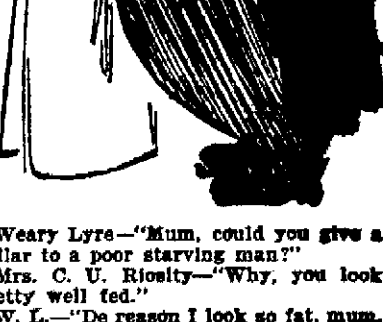

EXPLAINED.

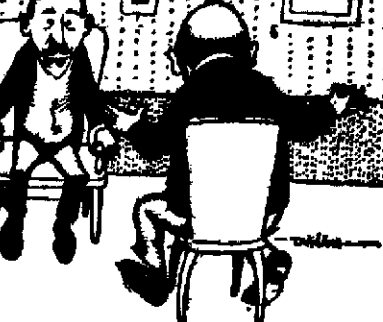

Mamma (severely)—"George Brown, what do you mean by going into the cooky jar? Didn't I tell you you couldn't have one?"
George—"Well, I didn't take one. I took four."

WEARY LYRE—"Mum, could you give a dollar to a poor starving man?"
Mrs. C. U. Rionity—"Why, you look pretty well fed."

In the world of millinery the changes are not so great as one might have expected. In fact, I should say that the shapes have varied but little. It is curious how we remain faithful to the wide, flattened boat shape. On all sides at present we are assailed by models of it in white cloth, draped with beautiful lace and the inevitable diamond or pearl buckle. Of course, it is a very comfortable form of toque, and nobody looks particularly plain in it, but, on the other hand, I doubt if it is really becoming added to which, it undoubtedly ages a face. It requires a pleasant style of beauty to make the boat shape really successful, and it must be well tilted forward.

There is a small edition of the Gainsborough style coming in which will be distinctly becoming and will form a pleasing change from the three and four eared chapeaux of which we have heard so much. Although they were extremely beautiful in velvet, decorated with plumes, always provided the hair was worn full and bushy. But hard facts, abruptly turned up in odd points, with very often a plain face beneath and straight hair, have rather disillusioned one in the matter of the Gainsborough.

A floral chapeau is ever in request at this time of year, and I think when the white and gray chiffon toques, trimmed with a wreath of Parma violets, the helmet veiled with soft Maltese lace, the brims of nearly all the best headgear are softened with lace, for, the fashion what it may, it is ever one of the most becoming modes.

Small jackets of lace and muslin are, for the moment, taking the place of the blouse, though there are some extreme in the women who would never give up that touch of white tulle I think about the trimmation is fully justified for if properly adjusted it is a very charming flourish to a toilette, whereas lace, however beautiful, does not possess the same crisp, delightful qualities of fresh, clean tulle. There are some nets, too, which are a little more durable than tulle and yet extremely effective. Vols d'air, but little. There is a fancy for the very fine, clear meshes, with ring spots or crescents thereon. All black is the favorite, although a black and white mixture is extremely becoming. GIRLS SHOULD NOT BEGIN SCHOOL UNTIL SEVENTEEN.

Dr. S. Weir Mitchell deliberately maintains that for all the best purposes of female society, it would be better that American girls were not educated at all until they were 17, than that they are overeducated as they are at present. They study seven or eight hours a day when two or three would be sufficient to keep their intelligence in training—and all for what? To spend their after years on a sofa or sick room, and to be a burden instead of a help to those who are dearest to them.

THE SEVEN ENEMIES OF THE COMPLEXION.

It has been said that there are seven enemies to a clear complexion—imperfect digestion, unwholesome diet, insufficient sleep, rapid bodily functions, bad soap, lack of friction and perspiration, and neglect to apply timely remedies for blemishes. Now, if these seven enemies are to be kept from attacking the complexion, the torpid liver is to be blamed for sluggishness and moth patches. Sweets and fats produce pimples and ugly eruptions. A flannel wash cloth and a good face brush are important toilet aids. A simple internal remedy, Dr. Rochelle salts, two ounces; cream of tartar, one ounce; water, one quart. Pour hot water on the

THE FIRST CROP ON SPRING FRECKLES.

They Are About Due, but Can Be Avoided by Proper Precautions and Careful Protection of the Skin.

March winds, together with the warm spring sunshine, will soon result in mournful inquiries about those "horrid freckles." Consistently, all beauty seekers should be forewarned as to the best method of enjoying the air and yet remaining presentable. In the first place, the skin must be protected from the keen breezes. Otherwise each time the victim ventures out she will return home with a large addition to her already unwelcome collection of little brown spots.

The best protection is found in the use of a good cream or skin food. Then comes a powder, and it must be one that chills, not one of the talcum variety; that will rub off as fast as applied. The face should be gently rubbed with the cream, and after a few moments all that remains on the surface should be removed by the aid of a bit of cotton or a soft cloth. Then the powder should be applied, care being taken to see that all parts of the face are treated equally. It is easy to decorate the cheeks and forget the hollows around the eyes or the little strip of upper lip or the temples. One ought to be generous enough to cover all exposed places and wise enough to use discretion and common sense in avoiding a thick coat that shows. Properly applied in this manner, powder should be invisible. Protected thus, a woman may venture out feeling that there is little danger of adding to her attractions, and there is absolute certainty of relief from chapped and scaly cheeks, or additions to the freckles.

HER BOX AT THE THEATER.

She tells it on herself, so she should be absolved from being truly rural. The woman, belongs to Marion, Mass., that town which has known so many of the good and great—Grover Cleveland, Joe Jefferson and Richard Harding Davis. The woman is not one of the great people, but a good all-the-year-arounder. She does not often get away from the little place, but recently she did make a trip to New Bedford. It was quite a trip for her, and she decided while she was there to have a genuine treat and go to the theater. It chanced that that day a great many people had also decided to go, and the Marionite, when she reached the theater, found that every seat had been sold.

WOMAN'S GREATEST WANT.

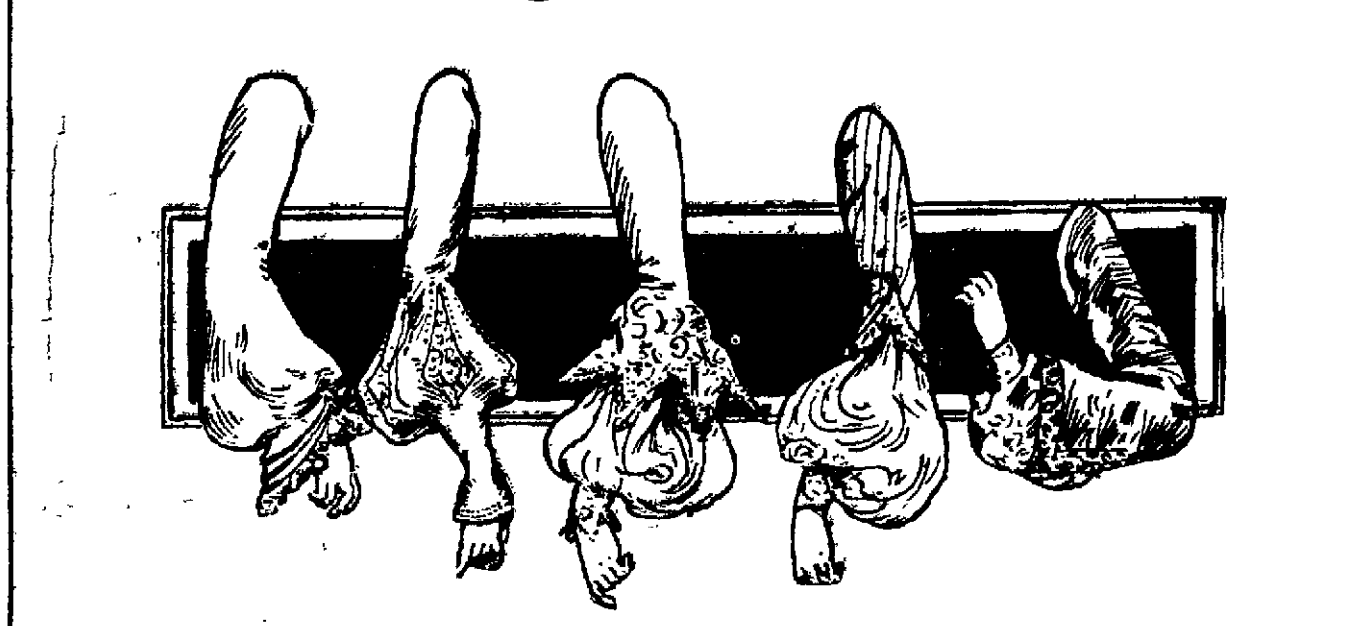

Ellen Westcott says that "the greatest want of woman is courage to live their own lives naturally and independently." Such living is not intended to separate a woman from her kind, nor divest her of womanly sympathies, but only to free her from a servile dread of "what people will say," and a propensity to follow blindly, like sheep, in the way that others go. No woman should strive to attract attention by doing strange and unladylike things. But every woman should be thoughtful enough to decide for herself what is best for her. There is no earthly reason why one mind should dominate a neighborhood. My mode of living may be entirely different from my neighbors, and yet we may both be right. She may

OF CREAMY TAN BROADCLOTH; WHITE IRISH CROCHET FALLING FROM SLEEVES.

Latest Designs in Wide Sleeves.

The chief novelty in dress lies in the sleeves at present. The tendency of the season for sleeves is all toward those fitting closely at the shoulder, and flowing out at the wrist, as all the above designs show in varying ways. No. 1 shows the latest development of the bishop sleeves, and is cut in two pieces set into a triple cuff at the wrist. No. 2 is distinctly novel, being slashed below the elbow to show an inner puff of lace, the cloth fitting closely at the wrist and slightly over the hand. Nos. 3 and 4 give different styles of double sleeves, with undersleeves of chiffon or lace. Vandycked lace forms a smart addition to No. 3 in the form of a deep cuff at the elbow. No. 5 is most charming in its simplicity, falling bell-shaped from the shoulder, to show an undersleeve of lace.

by nervousness among women as by drinking among men. Yet such is Dr. Mitchell's verdict. He holds that every girl ought to be examined as to her nervous temperament when about to go to school, and at frequent intervals afterward; that leisure, exercise, and wholesome meals ought to be insisted upon, and that studies ought to be compulsorily diminished or discontinued altogether the moment the well-known signs of overstrain appear. If girls are maintained in a normal nervous condition until they are 17 they may study as hard as they please afterward without imperiling the woman's life. But let there be no mistake about it. Overwork and unnatural worry from 8 or 9 to 17 mean ruin and wretchedness from 17 till early death.

HOW TO MAKE ROUGE.

Take two quarts of milk, two tablespoonfuls of sugar, one-third of a cake of compressed yeast, and three tablespoonfuls of water. Heat the milk to 100 degrees F. Dissolve one-third of a yeast cake in two tablespoonfuls of the milk. Boil the sugar with three tablespoonfuls of cold water. Mix all together and bottle at once. Cork tightly, and stand in warm place (70 degrees) overnight. Next morning place the bottles carefully on their sides in a cool place for 24 hours. Open with a tap. Or use ordinary beer bottles. This recipe is given by Miss Helena Sachse in her recently published volume on "How to Cook for the Sick and Convalescent."

BEAD CHATELAINES ARE BEING WORN FOR EVENING.

In colored beads they are making not only the long and elaborate neck chains, but the most attractive evening chate-laines that are showy and very eminently useful. These consist of three or four strings of beads hanging from the waist and falling at varying distances on the skirt. One chain ends in a tiny gauze or Impeyan fan, another in a wee bead bag for holding a handkerchief; to a third is attached the dance card, and from a fourth dangles a small lorgnon, through which faces can be recognized across the biggest ballroom.

MEAT EATING A CAUSE OF RHEUMATISM.

Therese seems to be a growing conviction among many people that we eat too much meat, a prominent woman said recently apropos of the subject: "I have not eaten any beef for nearly a year, and I feel like a new woman. I used to have rheumatism, but now it is all gone."

'TIS A GREAT CHARM IN WOMAN.

There is an exquisite charm about a neatly dressed woman. She does not wear her hair loose, as if it is just about to fall on her shoulders. Her gloves are not ripped at the seams nor are any buttons missing from her boots. Her veil does not reveal a hole over her chin, nor does the binding of her skirt show ragged in places. Not many women show their tidiness in these details, but the well-groomed woman considers that neglect in these little things is full of shame to womankind. Note the gown she wears with a cross, and there is neither speck nor spot on it. Her linen collar and cuffs are snowy white, and remain properly fixed in their places. Her gloves do not wrinkle, but button smoothly over her wrists. Her shoes are dainty and polished. Her bonnet or hat is pinned on straight and her hair is charming itself. She is the picture of delicate finish and wholesome order. Would that we could come across her somewhere oftener.

A Kitten's Intelligence.

A hungry kitten was put into a cage, the door of which would fall open when a loop of wire that hung in front of the cage was pulled down an inch. The kitten tried to squeeze between the bars, clawed and bit at them, thrust its paws out between the bars, and clawed at various loose objects in the cage. It clawed the loop several times, but not with enough force to pull it down. After 160 seconds of such activity, it was in and ate the food. The kitten was then put into the cage again. There was a repetition of the same activities, but the successful movement came this time after 30 seconds. On the next trial, general activity for 30 seconds was required before the kitten escaped. With repeated trials the association between the interior of the box and the act of clawing at the loop became fixed, so that finally the kitten would do it in a few seconds—that is, as soon as put into the box. This progress is shown in the times taken in the different trials. They were 10, 20, 30, 15, 25, 20, 22, 11, 15, 20, 12, 10, 14, 10, 8, 5, 10, 8, 6, 6, and 7 seconds—Prof. E. L. Thorndike in The International Monthly.

A BUDGET OF FASHION GOSSIP FROM PARIS.

PARIS, March 2.—Side by side with display of spring millinery are exhibits of up-to-date hosiery. One is about as gorgeous as the other, and both attract attention. Frenchmen are especially fond about the appearing of their feet. One seldom sees an untidy petticoat or ugly stockings when the Parisienne swirls daintily across the way of mud or dust in traversing crossings.

White stockings, made of the finest silk and silk, are shown in abundance. There were worn last season, and there is every reason to suppose that they will be even more popular during the coming one. The decorations of the hosiery consist of lace insertions, appliques and skillfully designed embroideries. Stripes, set vertically, are more frequently used by designers than all round bars. This should be a consolation to women with thin legs, for nothing accentuates the apparent meagerness of a limb so much as a "barber pole" stocking pattern. The lines of trimmings are made of flowers embroidered on three shades of a single color. For instance, an all black silk stocking is covered with forget-me-nots in two shades of pale blue. A dark blue stocking is decorated with white forget-me-nots in two shades. Stockings are made in the fashionable spring and summer colors, for the ultra smart woman who wears the ultra smart stockings is to be seen, for that of the black of the winter is bright.

fully grotesque. Bands simulating garters are used as the points of departure for embroidered arabesques. The high priced hosiery is trimmed with designs hand painted in the best Watteau style and applied with bow-knots, scrolls and similar devices in lace. Jeweled patterns these consisting of embroidery studded with imitation gems, such as rubies, turquoise and emeralds, are also shown. Persian designs are woven into some stockings, usually in bands or pointed insertions, the design being outlined by a heavy strip of silk embroidery.

Stockings of black faced with chastity are intended not only for the grande dame who on the black and white of the French ball, or even who has a taste for wearing black. These are an economy about dark hosiery that secures it a place in the fashion of every season. For, like white, black may be worn with almost any color of gown. Garters whose ribbons and clasps harmonize with the colors of the hose are considered the correct thing.

Silk and muslin petticoats are both slated for summer wear, but they must be heavily trimmed with lace flowers in order to produce the very marked fullness that characterizes the skirt of the hour. If stockings of silk or muslin are substituted for reasons of economy, do not omit to have them at least edged with a very narrow finish of lace. Flimsy of palls are used in shaping the underskirts to the figure, excepting the black and white, which are, like skirts, generally tight fitting. The princess divided skirt is recommended by many dressmakers. It gives a smooth line at the waist and permits the skirted fullness below the bust without danger of twisting and tangle.

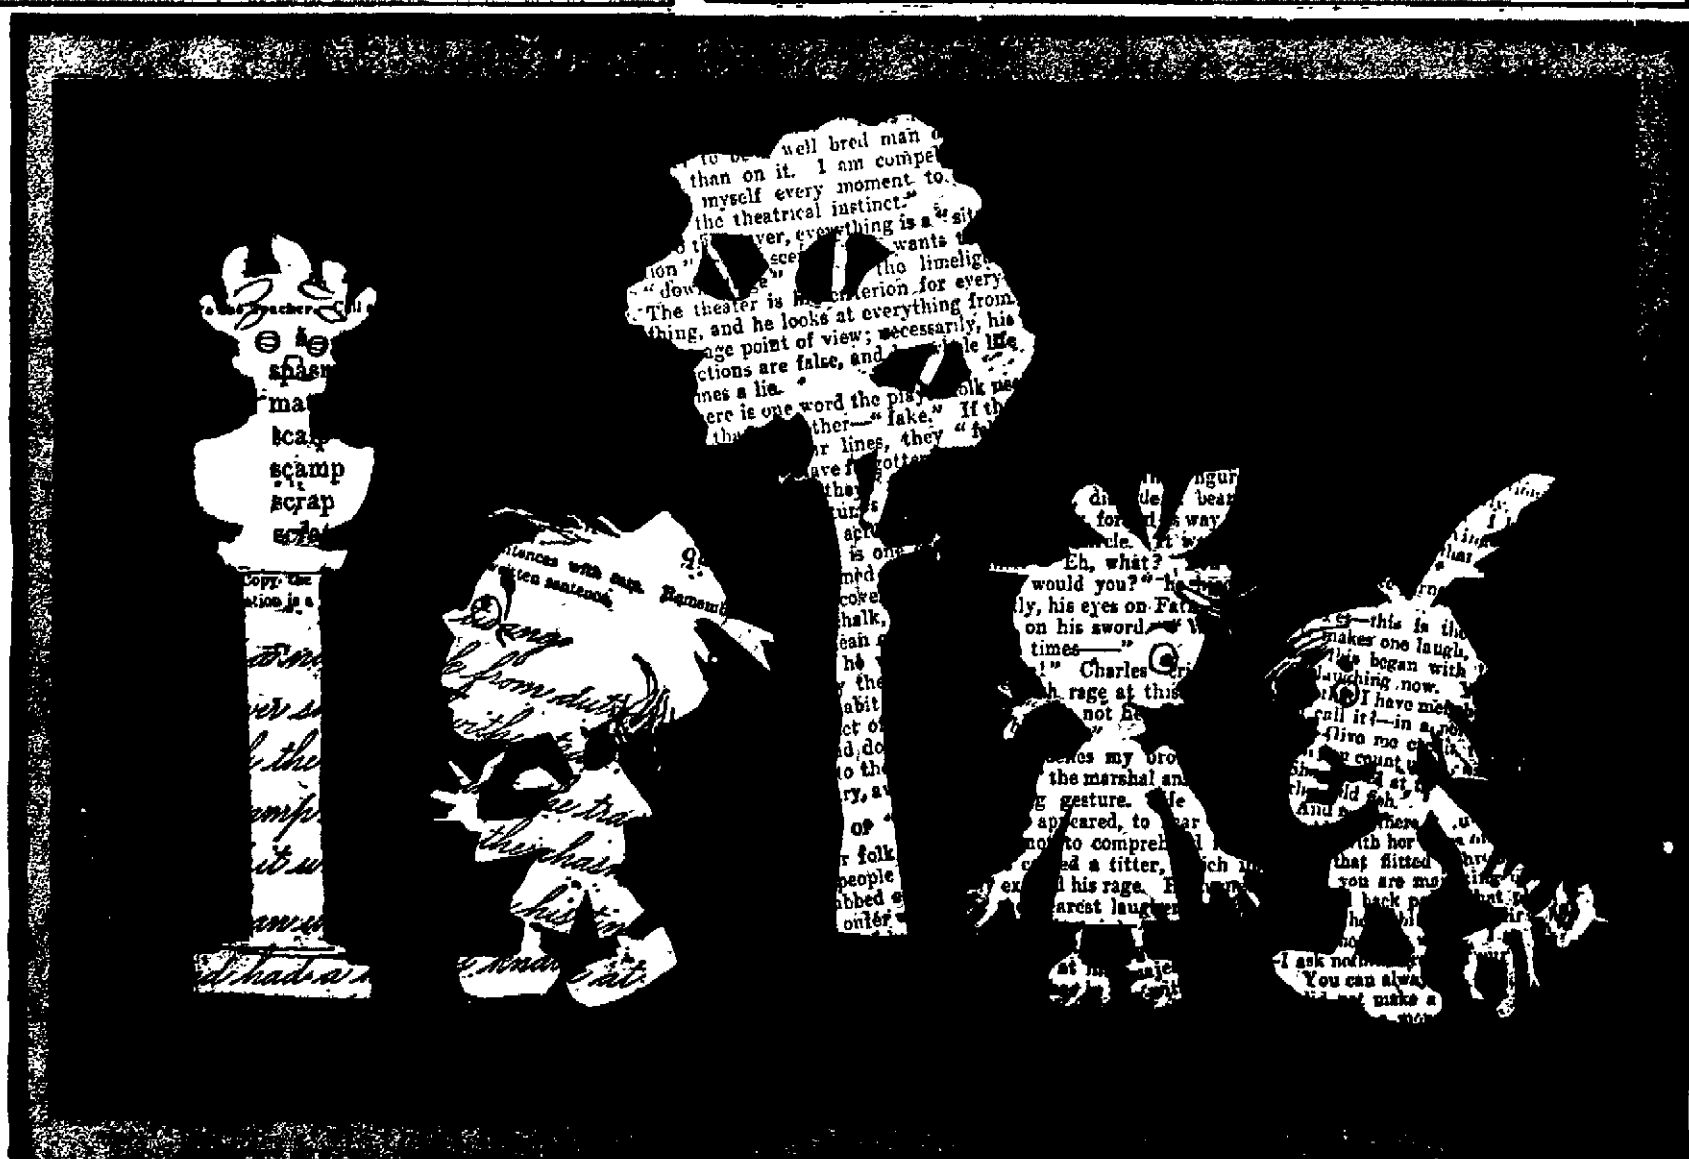

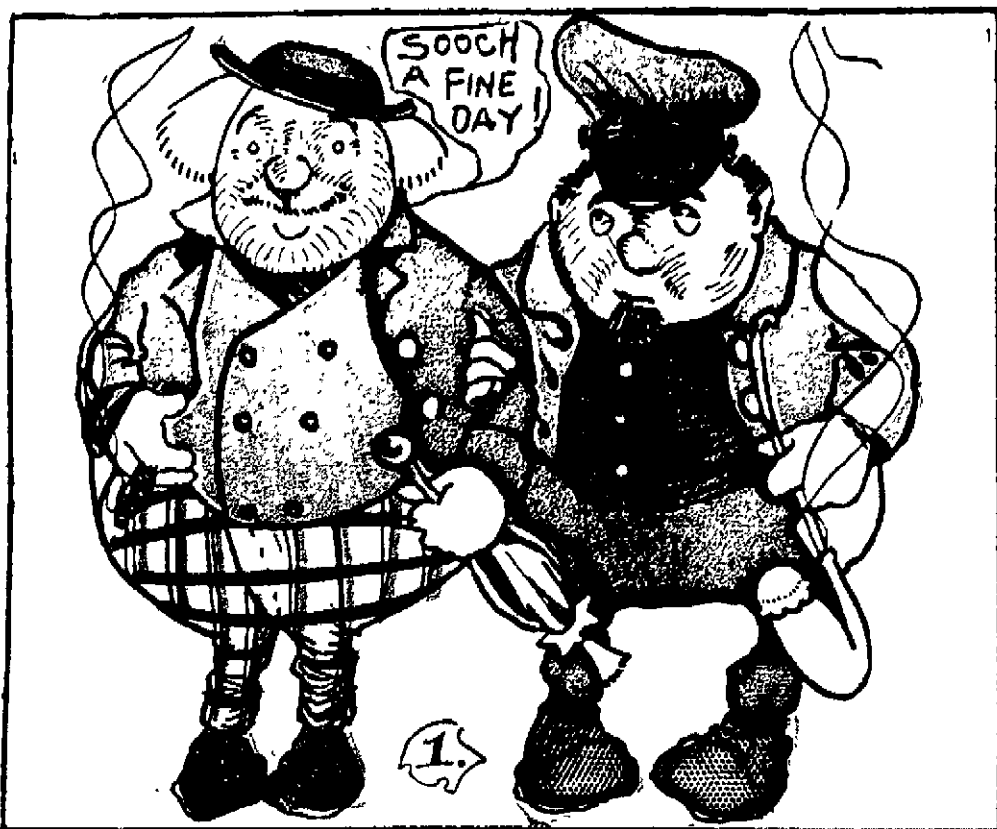

Soft, light summer silks have never appeared more attractive than the one of the present time. The most delicate shades are combined in stripes and waved patterns, one tint being a little brighter than the other. Another favorite is green color schemes. Slightly crimped weaves of silk are trimmed with snowy lace, bands of lace applied to a flat surface of silk being depended upon for decorative results. Vests, boleros and baguettes are cleverly achieved with lace and some cases the trimmings are so thickly put on as to give the appearance of an all over design. Other, greens and delicate blues and pinks are shades represented in the summer wash silks.
